BEST ENGINEERING COLLEGES OF INDIA 2017

STATE WISE EXHAUSTIVE COVERAGE OF THE
BEST ENGINEERING COLLEGES / UNIVERSITIES

COVER STORY

CMR Institute and Technology, Hyderabad	★★★★
CVR College of Engineering, Hyderabad	★★★★
Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad	★★★★
ICFAI Foundation for Higher Education, Hyderabad	★★★★
Maturi Venkata Subba Rao Engineering College, Hyderabad	★★★★
St. Martin's Engineering College, Hyderabad	★★★★
Vardhaman College of Engineering, Hyderabad	★★★★
Vasavi College of Engineering, Hyderabad	★★★★
VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad	★★★★
Guru Nanak Institutions Technical Campus, Ibrahimpatnam	★★★★↓
Malla Reddy College of Engineering and Technology, Hyderabad	★★★★↓
Guru Nanak Institute of Technology, Secunderabad	★★★★
KU College of Engineering and Technology, Warangal	★★★★
Mahatma Gandhi Institute of Technology, Hyderabad	★★★★

UTTAR PRADESH

Considering the size of Uttar Pradesh, it is not surprising that it has a large number of engineering colleges. The state has two IITs – at Kanpur and Varanasi, an NIT and an IIIT at Allahabad. Apart from that, Greater Noida and Noida too houses a lot of several prestigious colleges of engineering. Some of the major engineering colleges in the state are mentioned and rated below.

Public Engineering Institutes

Indian Institute of Technology, Banaras Hindu University, Varanasi	★★★★★
Indian Institute of Technology, Kanpur	★★★★★
Harcourt Butler Technological Institute, Kanpur	★★★★↓
Indian Institute of Information Technology, Allahabad	★★★★↓
Motilal Nehru National Institute of Technology, Allahabad	★★★★↓
Zakir Hussain College of Engineering and Technology, Aligarh Muslim University, Aligarh	★★★★↓
Institute of Engineering & Technology, Sitapur	★★★★
Institute of Information Technology, Lucknow	★★★★

Kamla Nehru Institute of Technology, Sultanpur	★★★★
Madan Mohan Malaviya University of Technology, Gorakhpur	★★★★
Dr. Ambedkar Institute of Technology for Handicapped, Kanpur	★★★★↓
Feroze Gandhi Institute of Engineering and Technology, Raibareli	★★★★↓
Bundelkhand Institute of Engineering and Technology, Jhansi	★★★
Mahatma Jyotiba Phule Rohilkhand University, Bareilly	★★★
Bundelkhand University, Jhansi	★★↓

Private Engineering Institutes

Ajay Kumar Garg Engineering College, Ghaziabad	★★★★↓
Amity School of Engineering and Technology, Noida	★★★★↓
Dayalbagh Educational Institute, Agra	★★★★↓
G L Bajaj Institute of Technology & Management, Greater Noida	★★★★↓
Galgotias University, Greater Noida	★★★★↓
GLA University, Mathura	★★★★↓
Jaypee Institute of Information Technology, Noida	★★★★↓
Shiv Nadar University, Greater Noida	★★★★↓
JSS Academy of Technical Education, Noida	★★★★
Sharda University, Greater Noida	★★★★
Subharti Institute of Technology and Engineering, Meerut	★★★★
Dr. KN Modi Institute of Engineering and Technology, Modinagar	★★★★↓
IMS Engineering College, Ghaziabad	★★★★↓
Inderprastha Engineering College, Ghaziabad	★★★★↓
Integral University, Lucknow	★★★★↓
Krishna Institute of Engineering and Technology, Ghaziabad	★★★★↓
Meerut Institute of Engineering and Technology, Meerut	★★★★↓
Noida Institute of Engineering and Technology, Greater Noida	★★★★↓
Radha Govind Group of Institutions, Meerut	★★★★↓
Raj Kumar Goel Institute of Technology, Ghaziabad	★★★★↓
Sam Higginbottom Institute of Agriculture, Technology and Science, Allahabad	★★★★↓

Top Private Engineer

Acharya Institute of Technology, Bangalore

Acropolis Institute of Technology and Research, Indore

Adani Institute of Infrastructure Engineering, Ahmedabad

Adhiyamaan College of Engineering, Hosur

AISECT University, Bhopal

Ajay Kumar Garg Engineering College, Ghaziabad

Alliance College of Engineering and Design, Bangalore

Amity School of Engineering and Technology, Noida

Amrita School of Engineering, Coimbatore

Amritsar College of Engineering and Technology, Amritsar

Amrutvahini College of Engineering, Ahmednagar

Anil Neerukonda Institute of Technology and Sciences, Vishakhapatnam

Annamacharya Institute of Technology and Sciences, Rajampet

Army Institute of Technology, Pune

Aurora's Technological and Research Institute, Hyderabad

Baddi University of Emerging Sciences and Technology, Baddi

Ballari Institute of Technology & Management, Ballari

Banasthali University, Banasthali

Bangalore Institute of Technology, Bangalore

Beehive College of Engineering & Technology, Dehradun

Bharath University, Chennai

Bharati Vidyapeeth's College of Engineering, Delhi

Bhilai Institute of Technology, Raipur

Birla Institute of Applied Sciences, Nainital

Birla Institute of Technology, Mesra

BMS College of Engineering, Bangalore

BMS Institute of Technology and Management, Bangalore

BS Abdur Rahman University, Chennai

BV Bhoomaraddi College of Engineering and Technology, Hubli

BVRIT Padmasri Dr BV Raju Institute of Technology, Hyderabad

CEPT University, Ahmedabad

Chaitanya Bharathi Institute of Technology, Hyderabad

Chandigarh Engineering College, Landran Campus, Mohali

Chandigarh University, Chandigarh

Chandubhai S Patel Institute of Technology, Anand

Charotar University of Science and Technology, Petlad

Chitkara University, Patiala

Christ University, Bangalore

CMR Institute and Technology, Hyderabad

Cochin University of Science & Technology, Kochi

College of Engineering Studies, University of Petroleum and Energy Studies, Dehradun

College of Engineering Roorkee (COER), Roorkee

College of Technology and Engineering, Maharana Pratap University of Agriculture and Technology, Udaipur

CV Raman College of Engineering, Bhubaneswar

CVR College of Engineering, Hyderabad

DAV Institute of Engineering and Technology, Jalandhar

Sathyabama University, Chennai	

“Human communication is the key to advancement”

Subharti University recently received Best Brand Icon award from Times Now along with an “A” accreditation last year. The university has been progressing since years and actively participates in the industry along with enhancement of learning and teaching methods. **Dr NK Ahuja, Vice Chancellor, Subharti University** speaks to **Sheena Sachdeva** on how is the university moving forward with facing all the challenges head on for a holistic development of their students.

With immense knowledge in education and across different industries, how has been your journey till here?

Suberb!! It is irrespective of what you do, what one needs is knowledge, common sense and honesty to thrive through the journey. I am basically a Orthodontics. Back, I was in army. That was a different sort of role altogether and then coming down to full time teacher and then a principal and then an administrator. I have been serving entirely different roles. After retirement, I am here as a Vice Chancellor along with a teacher of Art of Living as I believe in spiritualism. In all, my experience has been superb. In short, if any work is done with full honesty and sincerity, you are sure to succeed.

As technology has been the driving force in all the industries in the current scenario, how does your institution imbibe technological transformations which are happening at galloping speed?

As technology is one of the most important tools and without technology one cannot proceed on

date. The digitization in totality is must, say admission section, examination section, even letters that has to be sent to different departments and colleges. So, unless there is technology aided institution, unless we are on internet there shall be no advancement. A university will get cut-off from the world. Hence, technology is time-saving and progressive.

We have to keep up the pace with technology and that is what we are doing at Subharti. We are almost reaching to paperless organisation. That's the need of the hour. Now, all the instructions and information are sent by emails to everybody. In Engineering, unless you give the latest technology to your students they cannot make a mark in this competitive world. Also, it's not just engineering whether you are in medical or dental or anywhere or in any field, unless you provide the latest technology and skills, you will not succeed.

As the university received the prestigious Brand Icon Award from Times Group along with “A” accreditation from NAAC, how has been the institute’s journey till here?

The accreditation is quite recent that too on November 5 2016 which we are yet to celebrate in the right sense. How popular we are becoming, time would tell, this year's admissions would tell. But, we know it has been a hard journey to maintain the standard. NAAC is one such organisation where we had 13 inspectors to inspect our institution to see every department.

They watch you in and out from syllabus to admission to students satisfaction to faculties to staff, almost everything. We are pleased to receive “A” grade this year, we intend to get “A+” after five years and that can only be attained by maintaining the standards and also by working on all the areas that we have reflected till yet in the coming years. And we are working overly on this. Hereafter, more than technology it is human relationships that is the key to advancement. Accordingly, our students must be taught in a way that they understand things in the right perspective. That is our basic goal and that is what we do.

Can you throw some light on the era of entrepreneurial bubble in the country that impacts the mindset of the students along with their employment opportunities?

Employment opportunities are lowering down all over the country in every field and it is not entrepreneurship that will bring in more opportunities but it is the mindset. When a student comes to a college, from the parents to the society, everyone says “Well, study hard, if you study hard you shall get a good job”.

Who has ever taught children to be an entrepreneur. Entrepreneurship has a negative impact on the mindsets of people since nobody knows about it so precisely. The whole idea of either getting a job or doing something, which signifies the connotation of an entrepreneur, is deep rooted in the mindsets of the people. Our children are taught to be good employees but

no one never promotes on being an entrepreneur.

When a student comes to college, he or she joins any college for three reasons; either to do a job or to become an entrepreneur or to become a researcher. Hence, students should be analysed on day one, who is capable for either of the three roles. No college can teach anyone how to become an entrepreneur. It is through various projects and practical assignments along with immense learning on the field can make student ready for entrepreneurship.

As you conduct various development programs on quality practices, how does it help both teachers and faculties?

Everything starts from the top. If I am not conscious about personality or overall development, how can I promote it among my teachers and if teachers are not conscious about their overall development how will students learn. In short teachers have to be role models, unless they are knowledgeable and are up to date, they can't promote their students to do the same. Hence, it is a chain reaction.

Everything has to start from top. Then only it can filter down.

During the time of cut-throat competition where various universities like Sharda, SRM, LPU, and various other are coming up with innovation in the industry, what are Subharti's key features that give it an edge over its competitors?

In the good old days, we use to say the faculties have to publish the scientific presentation papers. And the phrase was "unless you publish you will perish". Gone are the times, nowadays, "unless you innovate you will perish". So, primarily it has to be funds that is being made available to our faculty to start on innovation. There is a phrase "eyes don't see what mind might not know".

Hence, we have done few innovations in medical and dental college. But unfortunately we published them. One has to be smart where one should do innovation, get it patented and only then publish it. However, everyone has good and bad points along with lots of choices and it is upto students to choose from them.

What main challenges do you face while looking after the placements and administration departments?

Language control in this belt is unfortunately very poor. Most students come from the background of farming and their basic teaching and learning has been in Hindi medium.

It's not that we don't love our language, but if we want to compete in this world, one has to have a command over a global language. Unfortunately, it is lacking in the students due to which students feel inferior. To cope up with these problems, we take special classes and efforts to make every student speak, and understand English, along with regular teaching and preaching on Personality Development.

I take lectures myself on Personality Development. Personality doesn't mean just to wear a tie but how do you carry yourself. Hence, every course has Personality Development as a subject. Even before placements, we train them for the interviews. Hereafter, you have to be role model yourself in order to give your student the holistic knowledge.
