OUTCOMES

Upon successful completion of this course, it is expected that students will be able to:

1. Know the basic concept of drawing using software.
2. Know and start to use the basic commands and its uses.
3. Differentiate the plan and elevation of various structures.
4. To draw a plan and elevation of residential buildings.
5. Students are able to draw plan and elevation of buildings.

COURSE OBJECTIVE

1. To create awareness amongst students to basic concept of drawing using software.
2. To familiarize with basic commands and its uses.
3. To ensure the understanding of plan, elevation of various structures.
4. To enable to draw a plan and elevation of residential buildings.
5. To develop technical skills to the students so that they may fulfill the market demand and hence ensure their employability.

COURSE CONTENT

- Basics of AutoCAD
- Basic command of AutoCAD
- To familiarize with plan and elevation
- To draw plan and elevation.

VALUE ADDED
COURSE ON
AutoCAD

Organized By

Department of Civil Engineering
15th March, 2021-24th March, 2021

REGISTRATION FORM

1. Name of Participant: _____

2. Department: _____

3. Year & Sem: _____

4. Phone Number: _____

I undertake to abide by the rules and regulations of the competition imposed by the organizing Department and will participate with utmost discipline for the same.

Date: _____ Signature of Applicant

VALUE ADDED COURSE REPORT

TITLE NAME: AutoCAD

DURATION: 15/03/2021- 24/03/2021

The value added course on AutoCAD held since 15th March, 2021 – 24th March, 2021 was organized by the civil engineering department of SITE for B.Tech.(CE) for 2nd year students. The programme was organized with the following objectives:

1. To create awareness amongst students to basic concept of drawing using software.
2. To familiarize with basic commands and its uses.
3. To ensure the understanding of plan, elevation of various structures.
4. To enable to draw a plan and elevation of residential buildings.
5. To develop technical skills to the students so that they can fulfill the market demand and hence ensure their employability.

The programme was based on presentations and interactive sessions on AutoCAD using recent ICT tools. During the programme a variety of training methods like group discussion, demonstration and group work with presentation by participants were used. The programme was targeted to our 2nd year students to impart various designing as well as safety measures. There were 18 participants of civil engineering department enrolled and the same were completed the programme. The value added program was conducted by Er. Pankaj Kumar, Assistant Professor of civil engineering department with the cooperation of other faculties and especially by the HOD of civil engineering department.
