THE 'DAY OF LIBERATION'

SHUBHRA ATREYA

Content Writer IT Department, SVSU, Meerut

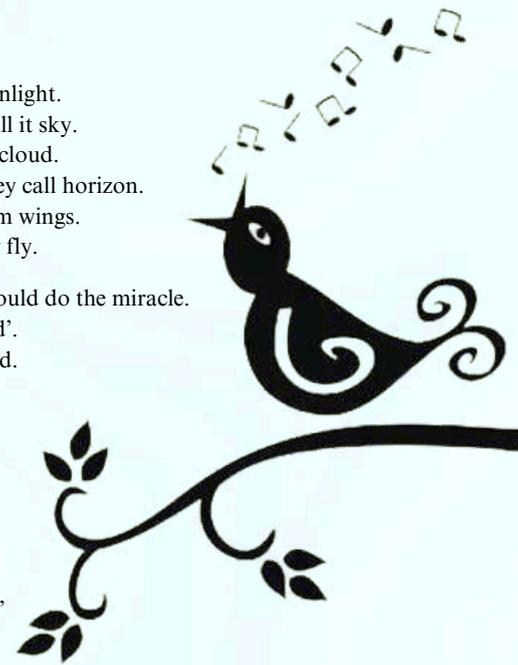

A tiny creature like me doesn't need much room to move. Perhaps!
 So, this space, surrounded on all sides by bars, seems 'enough' to me.
 How long I've been dwelling in this space, I don't know.
 Why I am confined to these metal bars, I don't know.
 I don't know much.
 But, one thing I know for sure—I'm just an adorable being on display,
 put in a place where people can look at.
 They keep me alive. They feed me. They love to hear me sing.
 What they fail to see is I sing in pure agony.
 What they fail to understand is the deep anguish, the utter loneliness.
 Life seems 'easy' and 'comfortable' in this cage,
 so comfortable, that the degree of comfort is sometimes unbearable.
 Every time I stare out of the cage with unseeing eyes, I suffer in silence;
 Time stands still, and I begin to think if there were a world beyond my surroundings,
 where I could escape into.

Few strangers often come to me from an unknown world, and start moving around my cage.
 Though they are complete stranger to me, yet interestingly, they look exactly like me.
 They hardly sit, and they seem to float in the air.
 They are crazy, they always sing and shout.
 They tell many fascinating stories of a different world.
 Yes, they say there is a world beyond the metal bars of the cage.
 They say these metal bars are not ordinary as they have the power to separate the two worlds,
 one is mine, and the other is theirs.
 Crazy Talks that I never heard of ...
 They talk about quickly moving air. They call it wind.
 And they talk about plunging into the air, and bathing in the sunlight.
 They talk of a vast blue space that has no limits, no walls. They call it sky.
 They talk of a white mass that floats in the sky, which they call cloud.
 They also talk of a place where the sky seems to meet the land, which they call horizon.
 They say some parts of their body can do a miracle. They call them wings.
 And, they show how they do the miracle; they show how they fly.

One day, they said I had the real wings, not just an adornment. They said I could do the miracle.
 They said I belong to their world, and they called me a 'bird'.
 They uttered a word, 'freedom', ... yes, this is what they said.
 It was quite astonishing to hear all this.
 I asked them how I could be part of their world,
 Is there a way out?
 There was no answer, no response.
 They swiftly flapped their wings and flew off.
 They never came back.
 Again I was all alone in my cage, within strong metal bars,
 Again I was alone with my thoughts ...
 I knew why they left me and never came back.
 I knew the answer ... There was no way out.
 There is no way out!

I hear people say God works in mysterious ways, and we never know about his plan.
 I hope, one day I'll take a flight in the sunny skies of that secret world ...
 I hope, one day there will be no metal bars, no confined space, no restrictions, no boundaries ...
 And, I believe that beautiful day will certainly come.
 I have a dream, there will be a Day of Liberation ...
 I dream, there will be a way out, if not in this life, then maybe in another.

बचपन की सहजता याद रखें...

जीवन एक रोमांच है
ना गुम हो बचपन की सहजता
रहे उछलते कूदते, बाहे फैलाते
जिंदगी का यहीं तो आयाम है
ना योजना, ना कल्पना,
ना चिंता - विचार है,
बस है तो अवचेतन मन
रचनात्मक, यादगार क्षणों का संसार है,
सहजता ही जीवन का उत्साह है,
सिखते-सिखाते पहचान बनाते
ना गिले है, ना शिकवे,
सभी के सभी नादान है
यहीं तो जीवन का आधार है
जीवन एक रोमांच है
ना गुम हो बचपन की सहजता
जिंदगी का यहीं तो आयाम है ।

सरल रहना सरल नहीं

सरल रहना, सरल नहीं, सरलता का, कोई विकल्प नहीं ॥
कठिनाई के मार्ग को, सरलता से सीखा जाता है ।
सीधा सच्चा मार्ग, अपना कर ही जीता जाता है ॥
कठिन डगर, कठिन सफर, नहीं किसी को भाता है ॥
मानो उलझे धागों सा, सूलझ कर ही समझ आता है ।
उलझन बन जाएगी सुलझन, पछतावे का कल नहीं ॥
सरलता का कोई विकल्प नहीं, सरल रहना सरल नहीं
रिश्तो में सरलता और मिठास, ओढ़ाये रखती परिवार का लिबास ।
बनाए रखती सबका खास, सब करते उसे पर विश्वास
सच्चाई की चमक चेहरे से होती कभी ओझल नहीं ॥
सरलता का कोई विकल्प नहीं, सरल रहना सरल नहीं
दिल से दिल तक जाती सरलता, साधारण से असाधारण बनती सरलता
तभी खुला रहस्य कहलाती सरलता, किसी के भी मन को नहीं दुखाती सरलता
शाश्वत सत्य का मार्ग दिखाती सरलता, जीवन का नित नया आयाम दिखाती सरलता
तभी तो सरल व्यक्ति भले ही दुनिया कि नजर में पागल कहलाये,
परन्तु उसे ईश्वर का सदा प्रिय बनाती सरलता,
सरल का अर्थ सबमे राम, ले रहे कर्मों के हिसाब से काम
जैसे जिसकी मन की भावना, वैसे ही उसके पाने की कामना
मन किसी का करके बुरा चतुराई को जीता के, सरलता को हरा
भोगता है जब फल तो पूछता है ईश्वर से मैंने ऐसे क्या करा
तब ईश भी देते है मुस्कुरा के जवाब, मेरा नहीं, तेरे कर्मों का ही ये हिसाब ।
सरलता का गहना, नहीं हर किसी के बसकी पहनना ।
दिखावे की दुनिया में, दिखावे का ही मोल,
ईश तो बिकजाते फिर भी सरलता के मोल, सरलता इश्वर का दूजा नाम ही कही ।
कहे रीबा, झूठ दिखावा बर्दाश्त करती है एक पल नहीं ।
सरल रहना सरल नहीं लेकिन सरलता का कोई भी विकल्प नहीं।

DEAREST ME

DEAREST ME, It gets better. Little did i know everything is starting to work out for me. And I will be stunned by all the magic the universe has given to make things on my way. All those overthinking and fear of being left behind will no longer creep in. I will start to dance around my kitchen, at ease. This time, when i look at the mirror, i will begin to see my reflection as the most beautiful being i have ever seen. And at last, i will learn how to be kind and gentle to myself again.I am learning to live slowly while enjoying the moment. Yes, everything is starting to get better. And from the time i read this letter, a smile will flash on my face. The feeling of gratefulness will arise. We hold all the power inside our hands. Think about the things that make our soul dance. If we aren't happy, make a change, just give it a chance. We are no longer obligated, to give into others demands. Everything was strange and silent and she seemed to be hundreds of miles away from anyone, but somehow she did not feel lonely at all... The beginning of anything is simply trying...

5 UNDERRATED PRODUCTIVITY TIPS TO INCREASE YOUR PRODUCTIVITY

HARSHA LOHANI
Content Writer, IT Department

As a college-going student who is all swept under the pile of assignments, fretting the semester exams hanging like a sword over the head, and the desire to live a little bit of life amidst everything, it becomes increasingly difficult to manage time effectively and strike the needed balance. Especially when Social Media acts as a potent force of distraction, you will find your bank of limited hours in a day depleting like anything. Well, this article is not about how to stop wasting your time, instead, it is about how to start using your time effectively to realize the most productive self you can ever be. So buckle up, as I share five proven underrated ways to do so!

1. FIRST KNOW YOUR BEST HOURS

Our energy levels fluctuate throughout the day. Some people are night owls and find the solitude of the night the best time to study, while some are early birds who are most energetic in the morning.

Find your best hours and get on to finishing the most important task, the most difficult subject during those golden hours.

3. DEPRIORITIZE

As contradictory as it may sound to the cliché advice of prioritizing your work you might have got, it is the need of the hour to deprioritize tasks as we live in an era of abundant information, and abundant to-do lists.

The famous Pareto's Principle is a well-researched rule that suggests that 80% of your success is determined by the 20% effort you put in. This 80-20 rule holds for any given scenario. There is only so much you can do in a day. Knowing what doesn't deserve your peak energy and time, helps in understanding what truly does.

Pick up the pen or the digital planner, make a list of all the tasks in a day, and outline the ones you can miss without impacting the overall results. This is the recipe for being able to prioritize the top 20% of tasks you need to do.

2. FIRST KNOW YOUR BEST HOURS

Studies reveal that clean and organized surroundings mean an organized mind. Everything on your desk should have a home it can go back to. The pen should go back to the pen stand, the books should go back to the bookshelf, and you will see how easily your life gets streamlined as you practice this habit more often.

Once you are sorted with your thoughts and the study equipment, you are good to go for the next step!

4. BE CLEAR- FIND YOUR WHY, HOW AND WHAT

**“IF A MAN KNOWS NOT TO
WHICH PORT HE SAILS, NO WIND IS
FAVORABLE.”- SENECA**

No amount of hard work is going to be useful if you don't know where you are heading. As a student, you need to be clear with the objectives you have with what you are studying, why you are studying, and how you are going to make the most of it. Opportunity finds those who show clear signs of wanting it!

5. SAY NO MORE OFTEN

It is hard, I know, but say it! Your friend calls you to have a quick chat that usually is not that quick? Say no! The notifications are constantly bombarding on your phone demanding your attention, say no and mute them during your golden hours. In fact, you need to say no to yourself every time you lose your motivation to finish the work at hand and feel tempted to retrace to your bed. Know that you will have plenty of time for all the things you are currently saying no to. You are not missing out on the fun. You are simply delaying the gratification and prepping yourself for something even more fulfilling, you are prepping for life!
