Department was very happy to see visitors, who are appreciating painters and their work.

An art exhibition can connect forms visually, showing contrast, difference, indifference, agreement between objects. An exhibition can gather ideas together, and point to them, within and beyond the gallery. An exhibition can be a form of knowledge production. The primary purpose of an art gallery is to nurture visual artists, promote their work, and expose them to the public, collectors, media, and cultural institutions. The art exhibit at an art gallery is important for the artist in getting his/her name and works out to a wider audience—other than family and friends. It helps in launching the artists' creative careers. Also, to check out the art competition. An art exhibit in an art museum is to marvel at the master's works, to learn from them, and find inspiration through their works. Dr. G. K. Thapliyal Vice Chancellor of Swami Vivekanand Subharti University Meerut has appreciated all students and said that Art prevails, because it is important to humanity. Art, literature, and history go hand in hand, and to know what was before your time makes you wiser for today and tomorrow—in every way. It's a fingerprint of our humanity.
