A Report
on
Swami Vivekanand Subharti University's Contribution towards achieving its Objectives of the United Nations Sustainable Development Goals (UNSDGs)

Prepared By:
Internal Quality Assurance Cell (IQAC)
Swami Vivekanand Subharti University,
October, 2025

The objectives of Swami Vivekanand Subharti University, in alignment with the United Nations Sustainable Development Goals (UNSDGs), along with the University's contributions towards achieving these objectives, are outlined below:

UNSDGs and University's Objective	University's Contribution Towards Achieving its Objectives
SDG 1: No Poverty University's Objective: To promote entrepreneurship development and skill enhancement programs to improve student and community employability, and to offer financial aid and scholarships to ensure education access is not a barrier to upward mobility.	**Faculty of Medicine -** • Regularly organizes free medical camps and health check-ups in nearby villages. • Provides mobile medical units for remote communities. • Offers subsidized treatment for low-income patients. • Trains community health workers to improve local primary care and reduce healthcare costs. **Faculty of Dental Sciences -** • Regularly conducts free dental screening and treatment camps in local communities. • Regularly arranges oral health awareness sessions to prevent costly dental problems. **Faculty of Nursing -** • Regularly conducts community nursing outreach (maternal & child care) to reduce morbidity and expenses. • Provides home-care visits for elderly or disabled individuals who cannot afford university care. • Offers skill training for local women as community caregivers to generate income. **Faculty of Allied Health Sciences -** • Regularly organizes free or low-cost rehabilitation camps for accident victims and disabled persons. • Trains family members in home physiotherapy, reducing the need for expensive long-term care. **Faculty of AYUSH –** • Regularly conducts traditional medicine camps and health-promotion workshops offering affordable care options. • Trains locals in herbal remedies to reduce dependence on costly drugs. • Offers courses for local practitioners to broaden low-cost primary care. **Faculty of Engineering and Technology -** • Develops low-cost technologies such as solar vans. • Encourages student projects creating affordable agricultural or household devices. • Provides technical training and entrepreneurship support (repairs, fabrication). **Faculty of Pharmacy -** • Regularly conducts generic medicines awareness campaigns and low-cost dispensary drives. • Runs medicine donation/discount programs and educates on rational drug use. • Trains community health workers in basic pharmacology and safe storage.

Faculty of Law -

- Regularly runs Legal Aid Clinics helping people access welfare schemes, land/benefit entitlements, and dispute resolution.
- Arranges rights-awareness camps (labour, social security) for poor communities.
- Assists with documentation (Aadhaar, pensions, etc.).

Faculty of Science -

- Regularly researches low-cost water purification, cropping, pest control, and energy solutions.
- Regularly organizes student-led science outreach to improve productivity (e.g., soil testing for farmers).
- Facilitates technology transfer to small producers to lower costs and increase yield.

Faculty of Education -

- Runs teacher training and community literacy programs to improve employability.
- Offers adult literacy and continuing education classes for better job access.
- Provides counselling on scholarships and government education benefits.

Faculty of Fine Arts -

- Offers skill development in crafts, applied arts, and design to increase artisans' income.
- Provides marketable product design and exhibition support, connecting makers to buyers.
- Conducts community art projects, creating micro-earning opportunities.

Faculty of Management and Commerce -

- Offers entrepreneurship and microbusiness training, assisting with business plans and microfinance linkages.
- Provides short vocational courses (accounts, digital marketing) to boost employability.
- Offers consultancy to community self-help groups (SHGs) to run sustainable enterprises.

College of Hotel Management -

- Provides hospitality skill training for local youth as a pathway to paid jobs.
- Supports community catering and small-scale food enterprises to help households monetize cooking skills.
- Offers food safety and small-business best practices to improve income from food ventures.

Faculty of Arts and Social Sciences -

- The Department of Journalism and Mass Communication regularly conducts media campaigns highlighting poverty issues and mobilizing local support, provides community reporting training to amplify marginalized voices, runs community development projects, surveys, and needs assessments to guide targeted poverty interventions, offers social work, conducts electoral awareness to ensure representation of poor communities, and counselling services for families in crisis.
- The Department of Home Science regularly organizes nutrition and livelihood programs, including food processing, tailoring, and handicrafts

<table>
<tr><td></td><td>

training, supports women's skill centres (sewing, food preservation) for regular income, and conducts community library drives to improve literacy and access to information.
- The Department of Language provides communication training to help micro-entrepreneurs and others.

University-wide Initiatives -
- Conducts cross-cutting activities implemented by multiple faculties.
- Offers scholarships, fee waivers, and sponsored seats for economically weaker students.
- Runs community outreach programs through NSS, NCC, and student volunteers in nearby villages.
- Offers skill and vocational short courses targeted at women, youth, and unemployed persons.
- Conducts research and monitoring to measure the outcome of interventions and improve targeting.
- Establishes partnerships with NGOs, government schemes, and CSR initiatives to scale up services for the poor.

</td></tr>
<tr><td>

SDG 2: Zero Hunger

University's Objective :
To conduct research on sustainable agriculture, nutrition, and food processing, and to organize community outreach programs for local farmers and residents to improve food security and healthy eating practices.

</td><td>

Faculty of Medicine -
- Regularly organizes nutrition awareness and health camps in rural areas, addressing malnutrition, anaemia, and underweight issues, especially among women and children.
- Regularly conducts screening for nutritional deficiencies (iron, vitamin D, calcium, etc.) during community outreach.
- Promotes dietary counselling for patients and rural populations during medical camps.

Faculty of Dental Sciences -
- Promotes oral health and nutrition education during dental awareness camps.
- Educates children on balanced diets and the impact of sugary foods on dental and overall health.

Faculty of Nursing -
- Regularly conducts community visits and school health programs focusing on maternal and child nutrition.
- Trains nursing students in nutritional assessment and counselling, particularly for antenatal and postnatal care.
- Participates in Poshan Abhiyan (National Nutrition Mission) in collaboration with local health departments.

Faculty of Allied Health Sciences -
- Regularly conducts nutrition awareness sessions for rehabilitation patients (orthopaedic and neurological) to improve recovery outcomes.
- Encourages dietary management for weight control and physical fitness among patients.

Faculty of AYUSH -
- Promotes Ayurvedic dietary principles and the use of herbal and natural supplements for balanced nutrition.
- Regularly organizes free consultation camps offering dietary advice based on traditional medicine.

Faculty of Engineering and Technology -

</td></tr>
</table>

The Faculty of Pharmacy -

- Conducts research on nutraceuticals and herbal formulations supporting nutritional health.
- Educates communities on safe and rational use of dietary supplements and vitamins.
- Maintains herbal gardens and conducts demonstrations on medicinal and nutritional plants.

The Faculty of Law -

- Runs legal literacy camps informing communities about the Right to Food, PDS, and Mid-Day Meal Scheme entitlements.
- Offers assistance in resolving cases related to denial of ration or welfare benefits.

Faculty of Science -

- Works on food quality testing, microbial safety and nutritional analysis projects.
- Regularly organizes student seminars and research on sustainable agriculture and food technology.
- Collaborates with Agriculture Department for soil and crop testing to improve yield and food security.

Faculty of Education -

- Regularly conducts awareness programs in schools and villages on healthy eating habits.
- Integrates health education modules in B.Ed., M.Ed., B.P.Ed. and M.P.Ed. curricula.
- Encourages student teachers to promote mid-day meal hygiene and school nutrition programs.

Faculty of Fine Arts -

- Designs posters, campaigns, and social messages promoting zero hunger and good nutrition.
- Regularly participates in awareness drives during university exhibitions.

Subharti Sanskriti Vibhag –

- Supports food donation drives for underprivileged communities.

Faculty of Management and Commerce -

- Conducts CSR workshops encouraging food security initiatives among industry partners.
- Supports resource mobilization campaigns for underprivileged communities.

College of Hotel Management -

- Ensures zero food waste in training kitchens; extra food is donated through NGOs.
- Regularly conducts community cooking demonstrations on affordable, nutritious meals.
- Promotes food hygiene and safety practices among students and community members.

Faculty of Arts and Social Sciences -

	- Produces documentaries and reports on hunger and nutrition issues in rural areas. - Runs media literacy campaigns highlighting government food security programs and local nutrition success stories. - Conducts socio-economic surveys on food insecurity in adopted villages. - Engages in community outreach to support government nutrition and livelihood schemes. - Provides social work, counselling services, and nutrition/livelihood programs (tailoring, handicrafts, small-scale food processing). - Supports women's skill centres, community libraries, and digital literacy initiatives. - Conducts counselling, psychosocial support, moral support programs, and electoral awareness. - Leads nutrition education, diet planning, and food preservation training for rural women. - Maintains model kitchens and demonstration units for balanced, low-cost meals. - Partners with NGOs to train women's groups in food processing, preservation, and micro-enterprise creation. - Maintains a knowledge repository on food security, nutrition, and sustainable agriculture. - Supports information literacy sessions for students working on SDG-related research. - Promotes ethical awareness against food waste and supports community kitchen initiatives. - Organizes sessions on mindful eating and sustainable consumption rooted in Buddhist principles. - Conducts policy analysis and seminars on food distribution, and rural poverty. - Engages students in field surveys and advocacy for better food governance. - Encourages students to create stories, skits, and poems on food security awareness. **University-wide Initiatives -** - Organizes nutrition and anaemia screening camps with diagnostic facilities. - Provides diet counselling as part of community health outreach. - Community Kitchen Drives: Regular food donation and community meal distribution by NSS/NCC volunteers. - Adopted Villages Program: Continuous nutritional awareness and food security outreach. - Research & Training: Interdisciplinary projects on sustainable agriculture, food hygiene, and nutrition education. - Canteen Practices: Encouragement of minimal food waste and provision of balanced meal options.
SDG 3: Good Health and Well-being University's	**University's Wellness Centre –** - Promotes holistic health through awareness programs, and lifestyle management activities. - Provides mental health counseling, stress management, and emotional well-

Objective : To leverage the university's Wellness Centre, Medical, Dental, Nursing, Ayush, Physiotherapy and Pharmacy colleges to provide affordable, accessible, and quality healthcare services to the surrounding community through the university hospital and medical camps.	being support. • Extends wellness outreach to nearby communities through health camps and education initiatives. • Provides mental health counselling for students and staff. • Promotes mindfulness, meditation, and stress-relief sessions to enhance mental well-being. • Operates a confidential helpline for students and staff. **Faculty of Medical -** • Operates Subharti Medical College and the 1,000-bed Chhatrapati Shivaji Subharti Hospital, offering affordable or free healthcare services to the public. • Regularly organizes free medical and diagnostic camps in rural areas through collaborations with NSS and NCC. • Regularly conducts awareness programs on non-communicable diseases, maternal and child health, and preventive healthcare. • Implements vaccination drives (COVID-19, polio, hepatitis B, etc.) in coordination with district health authorities. • Provides emergency care, and health insurance support for students and staff. **Faculty of Dental -** • Offers low-cost or free dental treatment through its hospital and mobile dental vans. • Regularly organizes oral hygiene campaigns in schools and villages. • Regularly conducts tobacco cessation and oral cancer screening drives. **Faculty of Nursing –** • Regularly executes community health nursing programs in adopted villages focusing on maternal health, child immunization, and sanitation. • Regularly provides school health check-ups and first-aid training. • Leads health awareness rallies on adolescent health, hygiene, and nutrition. **Faculty of Allied Health Sciences -** • Regularly conducts rehabilitation camps for physically challenged individuals and accident victims. • Offers free physiotherapy sessions for underprivileged patients in collaboration with local NGOs. • Regularly organizes workshops on postural correction, ergonomics, and physical fitness. **Faculty of AYUSH -** • Promotes Ayurveda and Yoga-based preventive healthcare through daily sessions and community camps. • Regularly hosts workshops on immunity-boosting remedies. • Runs free Ayurvedic consultation camps with medicine distribution. **Faculty of Engineering and Technology -** • Develops low-cost health-monitoring and IoT-based health tracking devices through student innovation projects. • The Environment Department advocates green and pollution-free campus practices for a healthier environment. **Faculty of Pharmacy -**

- Regularly conducts drug abuse prevention and safe medication awareness programs.
- Engages in research on herbal and pharmaceutical formulations for improved health outcomes.
- Regularly organizes community outreach sessions on proper dosage and medicine storage.

Faculty of Law -
- Operates Legal Aid Clinics addressing cases related to health rights and medical negligence.
- Regularly holds seminars on Right to Health, patient rights, and bioethics.
- Participates in awareness campaigns on women's and children's health laws (MTP, POCSO, etc.).

Faculty of Science -
- Regularly conducts research on pollution, water quality, and disease-causing microbes, promoting environmental health.
- Regularly organizes science exhibitions demonstrating low-cost sanitation and clean-water technologies.

Faculty of Education -
- Integrates health education modules in the B.Ed. curriculum.
- Engages in school outreach programs on hygiene, menstrual health, and mental well-being.

Faculty of Fine Arts -
- Designs posters, wall paintings, and exhibitions promoting hygiene, vaccination, and fitness.
- Supports the university's wellness initiatives through creative visual campaigns.

Faculty of Management and Commerce -
- Regularly conducts stress and time management workshops and workplace well-being sessions.

College of Hotel Management -
- Trains students in food safety, hygiene, and balanced nutrition.
- Hosts healthy-cooking demonstrations for the campus and local community.

Faculty of Arts and Social Sciences -
- Produces documentaries, short films, and radio programs on public health and lifestyle diseases.
- Collaborates with local media to cover and promote health awareness campaigns.
- Conducts community counselling and social work programs addressing addiction, domestic abuse, and mental well-being.
- Leads surveys and outreach activities on public health behaviour and awareness.
- Organizes nutrition, hygiene, and home-based healthcare workshops for women and students.
- Develops low-cost nutritious meal plans and demonstrates them in rural health camps.
- Collaborates with AYUSH and NSS to support value-based wellness and

	yoga programs. • Organizes seminars on health policy, governance, and public health rights. • Encourages student research on government health schemes such as Ayushman Bharat and the National Health Policy (NHP). • Uses Street plays, skits, and storytelling to raise awareness on hygiene and vaccination. **University-wide Initiatives -** • Offers low-cost diagnostic and laboratory services to surrounding communities. • Conducts blood donation, eye check-up, and anaemia detection camps. • Trains technicians and volunteers in first aid and emergency care. • Subharti Hospital Outreach: Continuous free or subsidized medical and dental services to nearby villages. • NSS/NCC Units: Active in blood donation drives, International Yoga Day celebrations, fitness campaigns, and hygiene awareness. • Campus Environment: Maintains smoke-free and plastic-free policies to ensure a clean and healthy lifestyle.
SDG 4: Quality Education University's Objective: To ensure inclusive and equitable quality education through diverse, interdisciplinary academic programs, continuous faculty development, and the integration of lifelong learning opportunities for all.	**Internal Quality Assurance Cell -** • Ensures implementation of quality benchmarks in teaching, learning, and evaluation to enhance educational standards. • Promotes outcome-based education (OBE) and continuous curriculum improvement aligned with global and national quality frameworks. • Facilitates faculty development programs, workshops, and training sessions to build teaching excellence and academic innovation. • Encourages inclusive education through initiatives that support students from diverse backgrounds and promote equal learning opportunities. • Monitors and evaluates academic performance, institutional best practices, and stakeholder feedback to ensure quality assurance and sustainable educational growth. **Faculty of Medicine -** • Provides medical education and clinical training for MBBS, MD/MS, and allied health programs aligned with national competency-based frameworks. • Conducts Continuing Medical Education (CME) sessions and public health awareness programs. • Encourages research-oriented learning, internships, and community engagement to strengthen professional competencies. **Faculty of Dental Sciences -** • Offers hands-on clinical training for BDS and MDS students through Subharti Dental College & Hospital. • Regularly organizes dental camps, oral hygiene awareness sessions, and community outreach activities promoting experiential learning. **Faculty of Nursing -** • Trains students in nursing with a strong foundation in theory, clinical practice, and ethics. • Regularly conducts simulation-based training, first-aid, and community health programs. • Promotes continuing professional development through workshops, bridge

courses, and refresher modules.

Faculty of AYUSH -

- Regularly conducts workshops, rural health camps, and yoga-based training for students and the community.

Faculty of Allied Health Sciences -

- Emphasizes practical and experiential learning in rehabilitation sciences and traditional medicine systems.
- Regularly organizes health camps, for both students and the local community.

Faculty of Engineering & Technology -

- Offers project-based, skill-oriented education promoting innovation, research, and entrepreneurship.
- Conducts techfest, technical workshops, and industry-linked programs in emerging technologies.
- Operates the Subharti Incubation and Innovation Centre to nurture start-ups and student-led innovations.

Faculty of Pharmacy -

- Provides practical training in pharmaceutical formulation, analysis, and pharmacovigilance.
- Regularly organizes seminars, awareness programs, and internships in collaboration with leading pharmaceutical industries.
- Encourages research in herbal and modern drug formulations for societal benefit.

Faculty of Law -

- Conducts legal literacy programs and awareness sessions in schools and rural areas.
- Promotes clinical legal education through legal aid camps, client counselling, and moot court training.
- Encourages research and debate on constitutional rights, health laws, and justice accessibility.

Faculty of Science -

- Engages students in research-based learning, laboratory experimentation, and innovation projects.
- Promotes STEM education through seminars, workshops, and science exhibitions.
- Encourages participation in national and international research collaborations.

Faculty of Education -

- Prepares competent and empathetic educators through B.Ed., M.Ed., and Ph.D. programs.
- Promotes inclusive education, digital pedagogy, and innovative teaching practices.
- Engages students in school outreach projects on health, hygiene, and mental well-being.

Faculty of Fine Arts -

- Fosters creative and experiential learning through painting, sculpture, design, and multimedia workshops.

- Organizes art exhibitions, competitions, and cultural exchange programs to promote aesthetic education.

College of Hotel Management -
- Provides skill-based hospitality education emphasizing practical training and real-world applications.
- Collaborates with industry for internships, live projects, and culinary innovation workshops.
- Focuses on food safety, hygiene, and sustainable tourism education.

Faculty of Management and Commerce -
- Offers entrepreneurship, business, and leadership education with industry-driven pedagogy.
- Conducts skill development and professional training programs aligned with contemporary business needs.
- Supports student start-ups and innovation projects through incubation and mentorship.

Faculty of Arts and Social Sciences -
- Promotes media literacy, ethical journalism, and digital storytelling.
- Conducts media workshops, internships, and awareness campaigns on social and public issues.
- Encourages student-led community media initiatives for public education and empowerment.
- Encourages multilingual and multicultural learning to enhance communication and inclusion.
- Educates students in nutrition, family welfare, and life skills.
- Conducts training sessions for women's self-employment, community health, and home-based entrepreneurship.
- Promotes balanced diet and hygiene awareness in rural outreach programs.
- Provides training in digital cataloguing, knowledge management, and e-learning tools.
- Supports academic research through access to global online databases.
- Organizes lectures, meditation workshops, and value-based learning sessions for students and staff.
- Promotes emotional intelligence, compassion, and holistic well-being through Buddhist philosophy.

University-wide Initiatives -
- Offers affordable, multidisciplinary education through its faculties spanning medicine, law, science, technology, management, humanities, and arts.
- Fully implements the National Education Policy (NEP) 2020, emphasizing flexibility, multidisciplinary learning, and skill-based, holistic education.
- Provides scholarships and financial aid for economically weaker sections, girls, and differently-abled students.
- Conducts Faculty Development Programs (FDPs), curriculum innovation workshops, and pedagogical training to enhance teaching quality and learning outcomes.
- Organizes community outreach programs and educational awareness drives in rural and underserved regions through NSS, NCC, and IQAC initiatives.
- Offers free or subsidized education to orphans, single-girl children, and

	• children of defence personnel. • Promotes digital learning and open educational resources via a robust Learning Management System (LMS) for blended and remote learning.
SDG 5: Gender Equality University's Objective : To establish policies and a campus culture that ensures gender equality, eliminates all forms of discrimination and violence, and promotes the full and effective participation of women in leadership and all academic disciplines.	**Subharti Gender Sensitization Cell, Women Empowerment Cell and Equal Opportunity Cell -** • Organizes awareness programs, seminars, and workshops on gender equality, women's rights, and prevention of gender-based discrimination. • Ensures implementation of policies related to gender equity, sexual harassment prevention, and workplace safety under UGC and POSH guidelines. • Encourages women's participation and leadership in academic, administrative, and extracurricular activities. • Provides counseling, guidance, and support mechanisms to address issues related to gender bias, harassment, or inequality. • Collaborates with government bodies and NGOs to promote gender sensitization, empowerment, and community outreach initiatives. **Faculty of Medicine -** • Conducts women's health awareness programs, including breast and cervical cancer screening camps. • Encourages female leadership among medical faculty, practitioners, and researchers. • Promotes equal participation of women in medical research, providing mentorship and collaborative opportunities. **Faculty of Dental Sciences -** • Holds regular oral health and hygiene awareness camps for women and schoolgirls. • Provides equal clinical exposure and professional opportunities to female dental students. **Faculty of Nursing -** • With a majority of women students and faculty, the faculty serves as a key center for women's professional education and empowerment. • Conducts community training programs for rural women on hygiene, nutrition, and preventive health. • Runs maternal and child health initiatives as part of community nursing programs. **Faculty of Allied Health Sciences -** • Regularly conducts rehabilitation programs for women with physical disabilities, post-natal issues, or trauma recovery needs. **University's Dedicated Center for Differently-Abled Individuals** • Promotes gender-sensitive inclusion by ensuring equitable access to educational facilities, resources, and opportunities for differently-abled women. • Organizes awareness programs and training sessions to sensitize faculty, staff, and students about disability rights. • Provides counseling, mentorship, and academic support to empower differently-abled female students to pursue higher education and leadership roles.

- Ensures barrier-free infrastructure, accessible digital resources, and supportive learning environments for all genders.

Faculty of AYUSH -
- Offers yoga, wellness, and meditation programs focused on women's physical and mental well-being.

Faculty of Engineering & Technology -
- Promotes STEM education for women through scholarships, mentoring programs, and research opportunities.
- Hosts coding challenges, innovation hackathons, and technical workshops encouraging participation from female students.

Faculty of Pharmacy -
- Focuses on research related to women's health, reproductive medicines, and hormonal therapies.
- Encourages equal participation of women in laboratories, industrial training, and research projects.

Faculty of Law -
- Conducts legal literacy and awareness programs on women's rights, domestic violence, and sexual harassment laws.
- Provides free legal aid to underprivileged women through university-run Legal Aid Clinics.
- Empowers female law students through moot court participation, debates, and leadership training.

Faculty of Science -
- Encourages female participation in research and innovation, supported by mentorship and equal lab access.
- Organizes seminars celebrating women scientists and their contributions to STEM development.

Faculty of Education -
- Trains future teachers in gender-sensitive pedagogy, inclusive education, and child protection policies.
- Encourages women educators to assume leadership roles in schools, teacher training, and academic administration.

Faculty of Fine Arts -
- Provides platforms for women to express creativity and social perspectives through art exhibitions and creative media.
- Organizes workshops and exhibitions highlighting themes of gender equality, empowerment, and women's identity in art.

Faculty of Management and Commerce -
- Promotes women entrepreneurship and leadership through incubation support, business mentoring, and start up development programs.
- Conducts leadership and confidence-building workshops for female students and faculty members.

College of Hotel Management -
- Ensures equal opportunities and training for female students in hospitality and culinary management.
- Conducts workshops on workplace dignity, safety, and anti-harassment policies within the hospitality industry.

	Faculty of Arts and Social Science - • Trains students to create gender-sensitive media content and documentaries on women's empowerment. • Organizes guest lectures and interactions with prominent women journalists and editors to inspire female students. • Encourages women's representation in campus media and communication leadership roles. • Conducts lectures, workshops, and research on gender studies, feminism, and women's leadership. • Focuses directly on women's education, nutrition, family welfare, and life skills development. • Provides training in self-employment and entrepreneurship, including tailoring, food processing, and home-based enterprises. • Conducts awareness sessions on women's health, hygiene, and empowerment in rural communities. • Reinforces respect for women's dignity, moral equality, and spiritual empowerment through ethical teachings. **University-Level Initiatives -** • Established a fully functional Internal Complaints Committee (ICC) and Women's Grievance Redressal Cell under the Prevention of Sexual Harassment (POSH) Act. • The Women Empowerment Cell (WEC) regularly conducts seminars, workshops, and awareness campaigns on women's rights, leadership, health, and legal awareness. • Organizes Gender Sensitization Programs for students, faculty, and non-teaching staff to promote inclusivity and mutual respect. • Ensures equal opportunities in admissions, appointments, training, and promotions, free from any gender bias. • Provides scholarships, fee concessions, and special awards for meritorious girl students, promoting higher education among women. • Guarantees female representation in all key university bodies, including IQAC, Examinations Cell, Board of Studies (BOS), Academic Council, and statutory committees. • Conducts self-defences workshops, legal literacy sessions, menstrual hygiene awareness drives, and health check-up camps for women students and staff. • Maintains a safe and inclusive campus with CCTV surveillance, separate hostels, transport facilities, and a transparent grievance redressal mechanism. • Recently initiated the drafting of a Policy on Women's Application, Acceptance, Entry, and Participation, aligning with THE Sustainable Impact Ratings 2026 requirements.
SDG 6: Clean Water and Sanitation University's Objective :	**University's Environment Department** • Conducts awareness programs, workshops, and campaigns on water conservation, safe sanitation, and hygiene practices within the campus and nearby communities. • Undertakes research projects related to water quality monitoring, wastewater

To implement effective water conservation measures on campus, including rainwater harvesting and the use of a Sewage Treatment Plant (STP), and to promote sanitation and hygiene awareness in the local community.	management, and sustainable use of water resources. • Collaborates with local bodies and organizations to promote clean water accessibility and eco-friendly waste disposal methods. • Implements and monitors campus-level initiatives such as rainwater harvesting, wastewater recycling, and reduction of water wastage. • Engages students in community outreach programs and environmental drives to promote sustainable sanitation and hygiene practices. **Faculty of Medicine -** • Conducts health awareness programs focusing on waterborne diseases and sanitation practices. • Ensures safe water standards within hospital wards, laboratories, and clinical units. • Engages medical students in community health drives emphasizing safe water, hygiene, and sanitation in rural outreach programs. **Faculty of Dental Sciences -** • Promotes oral hygiene awareness linked to clean water and sanitation. • Ensures water used in dental procedures meets sterilization and infection-control standards. **Faculty of Nursing -** • Conducts public health education sessions in nearby villages focusing on safe drinking water, sanitation, and hygiene (WASH). • Trains students in infection prevention, hygiene management, and hospital sanitation protocols. **Faculty of Allied Health Sciences -** • Organizes wellness programs emphasizing health **Faculty of AYUSH -** • Organizes yoga and wellness programs emphasizing holistic health, hygiene, and clean surroundings. **Faculty of Engineering & Technology -** • Undertakes student innovation projects on water conservation, grey water recycling, and smart irrigation systems. • Collaborates with environmental and civil engineering departments to enhance sustainable campus infrastructure. **Faculty of Pharmacy -** • Conducts research on waterborne contaminants, purification materials, and their impact on public health. • Ensures pharmaceutical waste management adheres to environmental regulations to prevent water pollution. **Faculty of Law -** • Runs legal literacy programs on the Right to Clean Water and Sanitation as a fundamental human right. • Organizes seminars and lectures on environmental legislation such as the Water (Prevention and Control of Pollution) Act, 1974, and the Swachh Bharat Mission. **Faculty of Science -** • The Departments of Environmental Science and Microbiology conduct water testing, microbial analysis, and pollution monitoring.

- Undertakes research projects on groundwater contamination, bioremediation, and sustainable water technologies.
- Promotes scientific solutions for clean water access through academic-industry collaborations.

Faculty of Education -
- Integrates environmental education and water conservation modules in B.Ed. and M.Ed. curricula.
- Teacher trainees conduct school awareness campaigns on hygiene, sanitation, and hand washing practices.

Faculty of Fine Arts -
- Creates posters, murals, and art installations around campus promoting water conservation and cleanliness.
- Uses visual arts as a medium to raise public awareness on sustainability and responsible water use.

Faculty of Management and Commerce -
- Integrates sustainability management concepts into business and leadership education.

College of Hotel Management -
- Promotes water-efficient kitchen and housekeeping practices through training and demonstration.
- Educates students on sustainable hospitality management, including low-flow fixtures and minimal water wastage techniques.

Faculty of Arts and Social Sciences -
- Produces documentaries, visual campaigns, and radio programs on clean water and sanitation themes.
- Promotes community engagement programs through plays, essay competitions, and awareness drives on water conservation.
- Educates students and rural communities on household water management, hygiene, and waste segregation.
- Curates digital and print resources on clean water, sanitation, and environmental protection.
- Conducts talks and workshops on cleanliness, environmental ethics, and mindfulness in sustainable living.
- Promotes values of purity, discipline, and harmony with nature, inspired by Buddhist teachings.

University-wide Initiatives -
- Operates a centralized Water Treatment Plant (WTP) to provide safe and potable water across all hostels, hospitals, and academic departments.
- Equipped with RO water purification systems in hostels, canteens, and academic blocks to ensure hygienic drinking water.
- Maintains a fully functional Sewage Treatment Plant (STP) — with treated water reused for gardening, landscaping, and horticulture.
- Implements Rainwater Harvesting Systems across multiple buildings to support groundwater recharge and sustainable water management.
- Conducts regular water quality testing through the Departments of Environmental Sciences and Engineering, ensuring compliance with safety standards.

	- Organizes awareness campaigns on water conservation and sanitation through NSS, NCC, IQAC, and student-led initiatives. - Provides clean, gender-segregated sanitation facilities in all academic, residential, and administrative areas. - The Swachhata Committee monitors hygiene, sanitation, and waste management to maintain a clean campus environment. - Actively participates in national cleanliness and water campaigns such as Swachhata Pakhwada and Jal Shakti Abhiyan, promoting water conservation and hygiene awareness.
SDG 7: Affordable and Clean Energy University's Objective : To increase the use of renewable energy sources on campus, such as the existing solar power plant, and to implement energy-saving measures like sensor-based lighting to enhance energy efficiency.	**University's Environment Department -** - Promotes awareness among students and staff about renewable energy sources, energy efficiency, and sustainable consumption practices. - Encourages the adoption of solar energy and other clean technologies within the university campus to reduce dependence on fossil fuels. - Conducts research and projects on renewable energy utilization, energy audits, and carbon footprint reduction. - Organizes seminars, workshops, and training programs on sustainable energy management and environmental conservation. - Collaborates with governmental agencies and organizations to implement clean energy initiatives and promote a green campus. **Faculty of Medicine -** - Utilizes energy-efficient medical equipment and ensures uninterrupted power supply through solar and hybrid backup systems. - Conducts awareness programs for medical and paramedical staff on energy conservation in healthcare facilities. **Faculty of Nursing -** - Integrates clean energy and sustainability awareness in community outreach and public health programs. - Ensures use of energy-efficient lighting and medical equipment in hospitals and hostels. **Faculty of Allied Health Science -** - Encourages the use of solar-based devices and eco-friendly systems in therapy and rehabilitation centres. **Faculty of AYUSH -** - Promotes clean energy and eco-conscious living through yoga, naturopathy, and wellness programs. **Faculty of Engineering & Technology -** - Leads university initiatives in solar energy generation, and energy auditing. - Students design and develop solar-powered streetlights, IoT-based energy meters, and mini solar charging systems. - Conducts seminars, workshops, and training sessions on renewable energy. **Faculty of Pharmacy -** - Employs solar-powered water heating systems in laboratories. - Integrates modules on energy-efficient laboratory operations and sustainable waste management into academic training. **Faculty of Law -** - Conducts legal literacy programs on renewable energy laws, environmental

protection, and energy justice.

- Encourages students to engage with policy research on energy governance and sustainability regulations.

Faculty of Science -

- The Departments of Physics conduct studies on solar cell efficiency, bioenergy, and the environmental impacts of energy use.
- Students participate in research projects on solar thermal systems, biomass utilization, and waste-to-energy conversion technologies.

Faculty of Education -

- Integrates environmental and energy education in B.Ed. and M.Ed. curricula.
- Teacher trainees conduct school-based awareness drives on energy conservation, solar energy adoption, and sustainable lifestyles.

Faculty of Fine Arts -

- Designs awareness campaigns, murals, and exhibitions promoting renewable energy and responsible consumption.
- Students create posters and art installations on themes such as *"Switch to Solar", "Save Nature to Sustain Life"* and *"Save Energy for the Future"*.

Faculty of Management -

- Promotes sustainable business practices and energy-efficient management systems through academic and extension activities.
- Organizes seminars on green entrepreneurship, energy economics, and corporate sustainability.
- Partners with industries and NGOs for CSR projects focused on renewable energy promotion and awareness.

College of Hotel Management -

- Incorporates solar water heating systems and energy-efficient appliances in training kitchens and guest facilities.
- Educates students in sustainable hospitality management, emphasizing resource optimization and energy conservation.

Faculty of Arts and Social Sciences -

- Organizes seminars, debates, and lectures on national energy policies, climate governance, and sustainable development.
- Produces documentaries, short films, and multimedia campaigns on renewable energy, sustainable living, and green innovation.
- Promotes mass awareness on clean energy initiatives through responsible journalism and public communication.
- Educates students and communities about energy-efficient home appliances and sustainable household practices.
- Conducts training programs on solar cookers, biogas utilization, and rural clean energy solutions.
- Promotes digitalization and e-resource access to reduce paper usage and energy consumption.
- Curates information resources on renewable energy, sustainability, and green technologies for academic and community benefit.
- Conducts discourses and workshops on minimalism, mindfulness, and responsible energy consumption.

	• Promotes ethical and sustainable living principles inspired by Buddhist philosophy and environmental harmony. **University-wide Initiatives -** • Installed solar photovoltaic systems on the rooftops of academic buildings, hostels, and administrative blocks, generating a significant portion of the university's electricity from renewable sources. • Entire campus illuminated through LED lighting, completely phasing out conventional bulbs to reduce energy consumption. • Uses energy-efficient appliances such as star-rated fans, air conditioners, and laboratory instruments across departments. • Employs Automatic Power Factor Correction (APFC) panels to optimize electricity usage and minimize wastage. • The Environment Department conduct annual energy audits, reporting outcomes to the Internal Quality Assurance Cell (IQAC). • Implements a University Carbon Management Plan, focusing on reducing CO_2 emissions through renewable energy adoption, tree plantation, and smart energy utilization. • Conducts awareness programs and observances during Energy Conservation Week and under the National Energy Efficiency Mission. • Campus infrastructure is designed to maximize natural lighting and ventilation, minimizing reliance on artificial energy. • Promotes research, innovation, and entrepreneurship in renewable energy technologies through student projects, technical workshops, and collaborations with external agencies.
SDG 8: Decent Work and Economic Growth University's Objective: To produce graduates with relevant skills and entrepreneurial mind-sets for productive employment, and to foster a supportive environment for innovation, start-ups, and sustainable economic growth.	**Faculty of Medicine -** • Produces highly skilled doctors and healthcare professionals through competency-based medical education. • Offers internships and residencies at Subharti Hospital. • Promotes medical entrepreneurship through innovation in telemedicine, diagnostics, and healthcare delivery systems. **Faculty of Dental Sciences -** • Provides hands-on clinical education to BDS and MDS students, ensuring skill-based employability. • Organizes community dental camps and outreach programs offering both service learning and professional exposure. **Faculty of Nursing -** • Trains students in professional healthcare skills, ensuring employability in top hospitals in India and abroad. • Conducts skill enhancement and bridge programs in emergency care, clinical procedures, and healthcare management. • Runs rural health training programs to empower youth in the healthcare sector. **Faculty of Allied Health Sciences -** • Conducts skill-based workshops on physiotherapy techniques, holistic healing, and community wellness. **Faculty of AYUSH -** • Encourages wellness entrepreneurship through yoga therapy, rehabilitation,

and traditional medicine practices.

Faculty of Engineering & Technology -

- Operates Institution's Innovation Council (IIC) and Entrepreneurship Development Cell (EDC), promoting student-led research, product development, and entrepreneurship among the students.
- Provides industry-linked training and certifications in advanced technologies such as AI, IoT, robotics, and renewable energy systems.
- Engages in placement-linked programs and MoUs with leading industries across NCR and India.
- Encourages projects that support the digital and green economy, enhancing both employability and sustainability.

Faculty of Pharmacy -

- Promotes pharmaceutical entrepreneurship through training in drug formulation, manufacturing, and quality control.
- Partners with pharmaceutical industries for internships, placements, and joint research initiatives.

Faculty of Law -

- Provides experiential legal education through moot courts, internships, and Legal Aid Clinics.
- Promotes access to justice and employability through practical legal training and community legal services.

Faculty of Science -

- Promotes research-oriented learning through laboratory projects, internships, and innovation grants.
- Encourages scientific entrepreneurship and patentable research in biotechnology, microbiology, and environmental sciences.

Faculty of Education -

- Prepares competent educators and academic leaders through B.Ed., M.Ed., and Ph.D. programs.
- Conducts career counseling, teaching practicums, and capacity-building workshops for employability in education sectors.

Faculty of Fine Arts -

- Develops creative entrepreneurs through workshops, design projects, and art exhibitions.
- Many graduates successfully pursue freelance and self-employment opportunities in visual arts, animation, and digital design.

Faculty of Management and Commerce -

- Serves as the hub of entrepreneurial development and leadership training at the university.
- Conducts business plan competitions, management fests, and start up mentoring sessions.
- Offers MBA and BBA programs specializing in HR, Marketing, Finance, and Entrepreneurship, emphasizing ethical and sustainable business models.
- Organizes industrial visits, live projects, and corporate guest lectures for experiential learning and employability enhancement.

College of Hotel Management -

- Offers hands-on training in hospitality management through simulated hotel

environments and real-world internships.

- Prepares students for employment and entrepreneurship in the tourism, catering, and event industries.

Faculty of Arts & Social Sciences -

- Provides career guidance for students pursuing civil services, social work, and academic professions.
- Empowers women through training in nutrition, apparel design, and food processing for self-employment.
- Collaborates with Self-Help Groups (SHGs) and NGOs for community-based livelihood generation.
- Prepares professionals in digital library management and knowledge systems.
- Offers training in e-resource management, digital archiving, and data handling to enhance employability.
- Promotes ethical leadership, mindfulness, and value-based employment principles.
- Encourages peace-based livelihood education and community service as integral aspects of decent work.
- Trains students for media, PR, and digital communication careers through newsroom simulations and internships.
- Promotes digital media entrepreneurship and independent content creation as career pathways.

University-Level Initiatives -

- Established the Central Research and Incubation Centre (CRIC) to promote student and faculty start-ups and innovation.
- Operates a dedicated Central Training & Placement Cell that provides career guidance, aptitude training, internships, and placement opportunities.
- Organizes mega job fairs, campus interviews, and industry-academia interaction programs in collaboration with national and international companies.
- Introduces skill-oriented certificate and diploma courses aligned with the National Skill Development Corporation (NSDC) and the Skill India Mission.
- Promotes hands-on internships, industrial training, and live projects across all faculties to bridge the gap between academic learning and industry requirements.
- Encourages women entrepreneurs and rural youth through community outreach and vocational empowerment programs.
- Ensures fair employment practices, equal opportunities, and gender equity in all recruitment and promotion processes.
- Conducts financial literacy, business innovation, and entrepreneurial awareness workshops to support sustainable livelihood creation.
- Maintains a safe, inclusive, and healthy workplace environment with strong HR and welfare policies for faculty, staff, and students.

SDG 9: Industry, Innovation, and Infrastructure	**Faculty of Medicine -** - Operates Subharti Hospital, a major healthcare infrastructure hub providing education, research, and patient care.

University Objective: To strengthen the Research and Innovation ecosystem, promote collaborations with industries, and develop resilient and sustainable campus infrastructure using innovative, eco-friendly technologies.	• Promotes biomedical innovation, medical device development, and telemedicine projects for digital healthcare advancement. **Faculty of Dental Sciences -** • Implements digital dentistry innovations, including CAD-CAM technology and prosthodontics research. • Conducts community outreach through mobile dental units, strengthening healthcare infrastructure accessibility. **Faculty of Nursing -** • Produces highly skilled healthcare professionals trained in modern medical technologies and e-health systems. • Promotes health informatics and digital healthcare practices for sustainable medical infrastructure development. **Faculty of Allied Health Sciences -** • Develops innovative wellness technologies and supports health-based start-ups rooted in indigenous knowledge systems. **Faculty of AYUSH -** • Integrates traditional Indian healthcare practices with modern scientific research. **Faculty of Engineering & Technology -** • Leads innovation through product development labs, robotics and automation units, and AI–IoT-based research projects. • Encourages students to participate in Smart India Hackathon and national-level innovation challenges. • Focuses on prototype development, patent generation, and technology transfer initiatives. • Conducts industrial training programs and skill enhancement workshops in partnership with leading companies. **Faculty of Pharmacy -** • Conducts pharmaceutical and drug innovation research in collaboration with industry partners. • Promotes start up culture in formulation design, nutraceuticals, and quality assurance. • Supports innovation through modern laboratories and research in pharmacognosy and pharmacology. **Faculty of Law -** • Promotes policy research, innovation management, and socio-legal infrastructure development. **Faculty of Science -** • Advances scientific research and innovation in biotechnology, materials science, nanotechnology, and environmental science. • Provides hands-on experience in instrumentation, data analytics, and laboratory research, promoting technology-led solutions. **Faculty of Education -** • Conducts research on inclusive governance, sustainable industry policies, and educational innovation. **Faculty of Fine Arts -** • Drives creative innovation in visual arts, digital design, and cultural

production.

- Contributes to the growth of creative industries and cultural infrastructure through exhibitions and design projects.

Faculty of Management and Commerce -

- Facilitates industrial collaboration and entrepreneurial capacity-building.
- Organizes business innovation workshops and training on sustainable industrial growth and financial management.

College of Hotel Management -

- Focuses on sustainable tourism infrastructure and eco-friendly hospitality practices.
- Trains students in resource-efficient hotel operations and green tourism entrepreneurship.

Faculty of Arts and Social Sciences -

- Strengthens communication infrastructure with digital media labs, production studios, and e-learning innovation.
- Conducts projects in digital storytelling, social media ethics, and information dissemination for community development.

University –wide Initiatives -

- A state-of-the-art campus spanning over 250 acres, featuring advanced laboratories, smart classrooms, high-speed Wi-Fi, and green-certified buildings.
- Houses solar power systems, water recycling plants, and energy-efficient infrastructure, aligned with sustainable development practices.
- Developed ICT-enabled teaching–learning systems, including a robust Learning Management System (LMS), digital libraries, and smart assessment platforms for seamless education delivery.
- Ensures universal accessibility through ramps, elevators, and PwD-friendly facilities, supporting inclusive infrastructure development.
- Established the Subharti Incubation and Innovation Centre to nurture start-ups, innovation, and entrepreneurship across all faculties.
- Recognized as a Mentor Institute under the Institution's Innovation Council (IIC), Ministry of Education, and Government of India.
- Organizes innovation hackathons, prototype competitions, and interdisciplinary research projects to foster creativity and problem-solving.
- Promotes patent filing, Intellectual Property Rights (IPR) workshops, and research commercialization for faculty and students.
- Encourages publications in Scopus, and indexed international journals, contributing to global knowledge exchange.
- Maintains strong MoUs with industries, R&D organizations, and professional bodies for joint projects, internships, and skill training.
- Implements AICTE IDEA Lab and Atal Innovation Mission initiatives to promote hands-on innovation and product development.
- Conducts industry-academia interaction programs, entrepreneurship conclaves, and expert lectures to bridge academic learning with industrial needs.
- Runs skill-based programs aligned with NSDC, Skill India Mission, and Atmanirbhar Bharat Abhiyan, empowering youth with employable and

	entrepreneurial skills. • Equipped with advanced laboratories supporting research in engineering, medical sciences, pharmacy, and life sciences. • Hosts Centres of Excellence in Artificial Intelligence, Renewable Energy, Biotechnology, and Sustainable Development. • The Central Instrumentation Facility provides interdisciplinary research support, data analytics, and industrial consultancy services. • Implements a robust Start-Up and Incubation Policy offering seed funding, mentorship, IP support, and networking opportunities for student innovators. • Operates paperless e-office systems, digital repositories, and online administrative platforms for efficiency and sustainability. • Encourages eco-friendly campus development through rainwater harvesting, solar lighting, waste segregation, and recycling initiatives. • Prioritizes resilient, inclusive, and low-carbon infrastructure planning to ensure equitable access for all stakeholders.
SDG 10: Reduced Inequalities University Objective: To ensure inclusive access to the university for students from diverse and disadvantaged backgrounds through targeted outreach, non-discriminatory policies, and a supportive learning environment.	**Faculty of Medicine -** • Provides free and subsidized healthcare to economically weaker and rural populations through Subharti Hospital. • Operates mobile medical units reaching remote communities. • Offers free health check-ups and specialized treatment for differently-abled persons, women, and senior citizens. **Faculty of Dental Sciences -** • Runs mobile dental clinics delivering free oral healthcare in villages. • Organizes oral hygiene awareness programs for marginalized populations, reducing health inequalities. **Faculty of Nursing -** • Conducts community nursing programs in rural and tribal regions. • Trains women and underprivileged youth in nursing and allied health professions, promoting inclusive employment. **Faculty of Allied Health Sciences -** • Provides free physiotherapy and rehabilitation services to differently-abled persons and the elderly. • Conducts community outreach physiotherapy camps in villages and old age homes. **Faculty of AYUSH -** • Promotes traditional and affordable healthcare through naturopathy. • Provides low-cost medical services and organizes free health camps for rural and low-income communities. **Faculty of Engineering & Technology -** • Conducts technical training and skill development workshops for rural and non-urban youth. • Implements community-based technology programs to enhance employability and bridge digital divides. **Faculty of Pharmacy -** • Engages in research on affordable and accessible drug formulations. • Promotes community pharmacy initiatives to ensure the availability of essential medicines in underserved regions.

Faculty of Law -
- Operates a Legal Aid Clinic providing free legal assistance to the underprivileged.
- Organizes legal literacy and awareness programs focusing on rights, justice, and equality in marginalized communities.

Faculty of Science -
- Hosts science camps and exhibitions for students from under-resourced schools.
- Encourages inclusive participation in research projects and science-based innovation.

Faculty of Education -
- Trains teachers in inclusive education methods and special education practices.
- Conducts literacy drives and adult education programs in nearby rural communities.

Faculty of Fine Arts -
- Promotes cultural inclusion through art, engaging marginalized groups in creative expression.
- Conducts art therapy workshops for children with disabilities and special needs.

Faculty of Management & Commerce -
- Conducts financial literacy and self-employment training in rural areas to promote economic independence.

College of Hotel Management -
- Provides vocational and hospitality training for youth from economically weaker backgrounds.
- Promotes diverse hiring practices and inclusive employment in the hospitality sector.

Faculties of Arts and Social Sciences -
- Conduct research and seminars on social equity, inclusive growth, and human rights.
- Promote social harmony and intercultural understanding through debates, workshops, and community programs.
- The School of Buddhist Studies integrates principles of compassion, equality, and peace, reinforcing moral foundations for an inclusive society.
- Encourages ethical and inclusive journalism through curriculum and media projects.
- Produces social campaigns and documentaries on themes of equality, justice, and human rights.

University – wide Initiatives -
- Offers merit-based, need-based, and category-based scholarships to support students from economically weaker and marginalized communities.
- Provides special financial assistance and fee waivers for differently-abled students, single-girl children etc.
- Ensures gender-balanced and inclusive admissions across all faculties and programs.
- Implements transparent admission processes promoting equal educational

	opportunity for all. • Equal Opportunity Cell (EOC) • Anti-Ragging Committee • Gender Sensitization and Women Cell • SC/ST and Minority Grievance Redressal Cell • Internal Complaints Committee (ICC) • Conducts community extension programs through NSS, NCC, and faculty-led outreach initiatives. • Adopts nearby villages under university extension programs, offering literacy, health, and vocational training to underprivileged youth. • Provides bridge courses and remedial classes for academically weaker students to ensure retention and success. • Through the Subharti Directorate of Distance Education, offers affordable and flexible learning opportunities to learners across India and abroad. • The campus is fully accessible, featuring ramps, elevators, and accessible washrooms for Persons with Disabilities (PwD). • Integrates assistive technologies and inclusive digital platforms in classrooms and libraries. • Ensures that all major academic and residential buildings are barrier-free and inclusively designed. • Maintains equal opportunity employment policies, ensuring fair recruitment and promotion practices. • Encourages regional, linguistic, and cultural diversity among faculty and staff. • Promotes women's leadership, with several women serving as deans, directors, and heads of departments. • Upholds a safe and inclusive workplace, supported by regular sensitization and gender-equity programs. • Enrols international students from Asia, Africa, and the Middle East, fostering cross-cultural understanding and diversity. • Organizes international conferences, student exchange programs, and cultural festivals to promote global inclusivity and mutual respect.
SDG 11: Sustainable Cities and Communities University Objective: To develop the campus as a model for a sustainable and eco-friendly urban space ('Subhartipuram'), promoting pedestrian-friendly pathways, battery-operated vehicles, and responsible resource	**Faculty of Medical Sciences -** • Conducts community health and wellness programs in nearby urban and rural regions. • Operates mobile health units and organizes health awareness camps addressing urban health challenges. **Faculty of Dental Sciences -** • Provides free dental check-ups and awareness sessions in schools, and underserved urban localities. **Faculty of Nursing -** • Trains students in community healthcare, first aid, and emergency preparedness. • Provides nursing and medical support to underprivileged neighbourhoods and rural and urban areas. **Faculty of Allied Health Science -** • Conducts community physiotherapy and wellness camps in urban centres.

management.	**Faculty of AYUSH -** • Promotes yoga and holistic health programs to improve mental and physical well-being among city residents. **Faculty of Engineering & Technology -** • Undertakes research in smart city technologies, renewable energy, and sustainable building materials. • Collaborates with urban planners and industries for sustainable infrastructure and community development projects. **Faculty of Pharmacy -** • Promotes safe pharmaceutical disposal practices and community awareness regarding medicine usage. • Regularly conducts public workshops on affordable healthcare and sustainable pharmacy management. **Faculty of Law -** • Operates legal literacy and civic awareness camps on municipal governance, housing rights, and environmental justice. **Faculty of Education -** • Integrates environmental education and civic responsibility into teacher training programs. • Organizes school outreach initiatives to build sustainability awareness among young learners. **Faculty of Fine Arts -** • Engages in public art, murals, and environmental installations to promote sustainability awareness. • Encourages students to use art as a medium for social and ecological advocacy. **Faculty of Management and Commerce -** • Conducts livelihood programs supporting sustainable community economies. • Organizes training workshops on green business practices and urban micro-enterprise development. **College of Hotel Management -** • Implements eco-friendly hospitality operations, focusing on energy conservation and waste reduction. • Promotes sustainable urban tourism through research and awareness initiatives. **Faculty of Arts and Social Sciences -** • Produces documentaries, awareness campaigns, and media projects on sustainability and community engagement. • Uses digital storytelling to promote clean and resilient urban living practices. • Conducts research and policy workshops on urban planning, sustainable living, and social cohesion. • Focuses on inclusive urban growth, women's participation, and social resilience in city development. • Curates and disseminates knowledge resources on sustainable cities, climate resilience, and urban governance.

<table>
<tr><td></td><td>

- Promotes mindfulness, compassion, and ethical living as foundations for harmonious and resilient communities.

University-wide Initiatives -

- University's 250+ acre campus is designed as an eco-friendly and sustainable environment, featuring extensive green cover, botanical gardens, and tree plantations.
- Implements comprehensive waste management systems, including waste segregation, organic composting, and recycling units.
- Operates an on-campus Sewage Treatment Plant (STP), with treated water reused for irrigation and landscaping.
- Incorporates rainwater harvesting systems to enhance groundwater recharge and solar power systems for clean energy generation.
- Ensures energy efficiency through LED lighting, water-saving devices, and smart resource monitoring.
- All campus pathways and buildings are designed to be inclusive and accessible, with ramps and barrier-free facilities for persons with disabilities.
- Actively engages in urban and rural development projects through NSS, NCC, and faculty-led extension programs.
- Regularly conducts awareness drives on cleanliness, sustainability, and environmental protection in Meerut city and nearby villages.
- Participates in Swachh Bharat Abhiyan, Jal Shakti Abhiyan, and other national missions focused on sanitation, hygiene, and water conservation.
- Collaborates with local authorities to support sustainable community planning and capacity building.
- The university has a robust emergency response system with fire safety installations, first-aid facilities, and disaster management protocols.
- Regularly conducts mock drills, safety workshops, and disaster awareness programs for students and staff.
- Promotes community resilience through first-responder training and emergency response education.
- University maintains sports complexes, auditoriums, open-air theatres, and recreational zones promoting physical, cultural, and social well-being.
- Provides inclusive spaces for women, senior citizens, and differently-abled individuals, ensuring a safe, equitable, and participatory campus community.

</td></tr>
<tr><td>

SDG 12: Responsible Consumption and Production

University Objective: To practice and promote sustainable consumption patterns on campus by implementing a comprehensive waste reduction, segregation, and

</td><td>

Faculty of Medical Sciences -

- Ensures safe biomedical waste management in hospitals and laboratories.
- Provides training for healthcare professionals in environmentally responsible practices.

Faculty of Dental Sciences

- Implements strict biomedical and dental waste disposal protocols.
- Encourages water and material conservation in clinical operations.

Faculty of Nursing -

- Trains students in hospital hygiene, waste segregation, and eco-friendly medical procedures.

Faculty of Allied Health Science -

- Promotes sustainable health practices using natural and renewable resources.

Faculty of AYUSH -

</td></tr>
</table>

recycling program, and encouraging the reuse of materials.	• Conducts community wellness programs highlighting minimal-resource therapies. **Faculty of Engineering & Technology -** • Leads research on green buildings, waste-to-energy systems, and sustainable engineering design. • Conducts training programs on renewable energy, clean production, and resource optimization. **Faculty of Pharmacy -** • Follows green lab protocols and ensures responsible chemical disposal. • Researches sustainable drug formulations and low-impact production methods. **Faculty of Science -** • Engages in research on waste recycling, material reusability, and sustainable technologies. • Encourages hands-on student projects promoting resource efficiency. **Faculty of Education -** • Trains future educators to promote eco-conscious learning and sustainable classroom practices. • Implements school outreach programs on waste reduction and responsible living. **Faculty of Fine Arts -** • Encourages recycling and reuse of materials in creative projects and exhibitions. • Conducts art-based environmental awareness workshops promoting sustainability through design. **Faculty of Management and Commerce -** • Teaches sustainable business strategies, green supply chain management, and corporate social responsibility (CSR). • Organizes seminars on ethical consumption and circular economy practices. **College** of Hotel Management - • Implements eco-friendly hospitality practices, including energy-efficient kitchens and waste minimization. • Trains students in sustainable tourism and resource-conscious operations. **Faculty of Arts and Social Sciences -** • Produces media campaigns, short films, and documentaries to promote responsible consumption. • Leads awareness drives on plastic reduction and environmental protection. • Integrates sustainability ethics, consumer behaviour, and social responsibility into curricula. • Conducts research on the societal and environmental dimensions of consumption. • Encourages digital resource use to reduce paper consumption. • Promotes sustainable library operations and e-waste management awareness. • Advocates mindfulness, moderation, and minimalism as foundations for sustainable living. • Promotes ethical consumption through the lens of spiritual and ecological balance.

	University-wide Initiatives -
	- Implements solid waste segregation at source across academic, residential, and hospital zones. - Operates organic composting units for biodegradable waste management. - Ensures systematic paper, plastic, and e-waste recycling through authorized recyclers. - Promotes zero-waste campus goals through awareness and monitoring programs. - Uses LED lighting, solar energy, and energy-efficient appliances throughout the campus. - Operates a Sewage Treatment Plant (STP) to recycle water for landscaping and sanitation. - Implements rainwater harvesting systems to replenish groundwater. - Conducts periodic energy audit through the Environment Department. - Maintains lush green landscaping with native tree species to enhance biodiversity. - Promotes plastic-free zones, eco-friendly canteens, and minimal use of disposables. - Encourages community participation through annual "Green Campus" drives and environmental celebrations. - Prioritizes eco-friendly, energy-efficient, and durable products for labs, offices, and hostels. - Sources materials from green-certified vendors to support sustainable production chains. - Advocates responsible purchasing policies across university departments. - Conducts seminars, workshops, and student campaigns on sustainable lifestyles, circular economy, and waste reduction. - NSS, NCC, and IQAC organize initiatives such as *Swachhata Pakhwada*, *E-waste Awareness Drives*, and *Sustainability Exhibitions*. - Integrates sustainability into academic curricula and extracurricular learning. - Encourages interdisciplinary research on renewable materials, green technologies, and resource optimization. - Supports student innovation projects addressing waste reduction, recycling, and eco-product development.
SDG 13: Climate Action University Objective: To reduce the university's carbon footprint through energy efficiency and the use of clean energy, and to educate the campus community on the impacts of climate	**Faculty of Medicine -** - Raises awareness of climate-related health risks, such as heat stress, vector-borne diseases, and pollution-related illnesses. - Organizes community health camps integrating climate-sensitive health practices. **Faculty of Dental Sciences -** - Implements eco-friendly dental practices to reduce chemical use and energy consumption. **Faculty of Nursing -** - Trains students in climate-resilient healthcare practices and disaster preparedness. **Faculty of Allied Health Sciences & AYUSH -** - Promotes environmental wellness, sustainable lifestyles, and eco-conscious

change and necessary adaptation/mitigation strategies.	therapeutic practices.
	Faculty of Engineering & Technology -
	• Leads research on renewable energy, energy-efficient systems, and smart infrastructure.
	• Projects include solar optimization, IoT-based energy monitoring, and waste-to-energy systems.
	Faculty of Science -
	• Conducts climate modelling, environmental monitoring, and carbon sequestration studies.
	• Engages students in air quality assessments, water quality monitoring, and climate resilience projects.
	Faculty of Fine Arts -
	• Organizes eco-awareness art projects, exhibitions, and creative campaigns to communicate climate action messages.
	Faculty of Management and Commerce -
	• Educates students on sustainable business models, green entrepreneurship, and climate risk management.
	College of Hotel Management -
	• Implements sustainable hospitality practices, including energy and water efficiency, and waste minimization.
	Faculty of Arts and Social Sciences -
	• Produces campaigns, documentaries, and media content to raise climate awareness.
	• Conducts research and seminars on climate policy, environmental governance, and community resilience.
	• Trains students and communities on sustainable household practices, resource efficiency, and eco-friendly living.
	• Provides resources on climate change, sustainable development, and environmental management.
	• Promotes ethical responsibility, mindfulness, and eco-conscious values for environmental conservation.
	University-wide Initiatives -
	• Implements solar power systems across rooftops, laboratories, and hostels to reduce reliance on fossil fuels.
	• Uses LED lighting, energy-efficient appliances, and smart electrical systems throughout the campus.
	• Conducts regular energy audits to monitor consumption and identify efficiency improvements.
	• Encourages green transportation, including bicycles and electric vehicles for students and staff.
	• Operates a Sewage Treatment Plant (STP); treated water is reused for irrigation and landscaping, reducing water stress.
	• Implements waste segregation, recycling, and composting to minimize landfill contributions and methane emissions.
	• Ensures sustainable disposal of biomedical, chemical and e-waste across university facilities.
	• Regularly conducts extensive tree plantation drives and maintains green

<table>
<tr><td></td><td>spaces to enhance carbon sequestration.
• Promotes native plant species to support biodiversity and ecosystem health.
• Maintains eco-friendly landscaping aligned with sustainable urban planning principles.
• Supports climate change research across Environmental Science, Engineering, and Science faculties.
• Encourages student-led projects on renewable energy, sustainable agriculture, and climate risk mitigation.
• Regularly conducts climate modelling, pollution monitoring, and environmental impact studies to inform campus and community practices.
• Organizes climate awareness campaigns, workshops, and seminars for students, faculty, staff, and local communities.
• Integrates climate change modules into curricula across faculties, especially Science, Engineering, and Management.
• Participates in global events like Earth Day, Climate Week etc.
• NSS and NCC units conduct village-level climate awareness drives, tree planting, and sustainable agriculture programs.
• Faculty and students engage in public talks, street plays, and community workshops on climate mitigation and adaptation.</td></tr>
<tr><td>SDG 14: Life Below Water

University's Objective:
To engage in research and awareness campaigns that address the impact of plastic pollution and waste on water bodies, promoting responsible waste disposal to protect aquatic ecosystems.</td><td>Faculty of Medicine -
• Promotes eco-conscious biomedical waste management to prevent water contamination.
Faculty of Dental Sciences -
• Implements environmentally safe disposal of dental chemicals and materials to reduce aquatic pollution.
Faculty of Nursing -
• Promote eco-conscious biomedical waste management in nursing to safeguard water sources and public health
Faculty of Engineering & Technology -
• Develops water treatment, filtration, and pollution monitoring systems.
• Students design innovative devices for water quality assessment and freshwater conservation.
Faculty of Pharmacy -
• Studies pharmaceutical residues in water bodies and promotes safe disposal of medicines.
Faculty of Science -
• Leads research in freshwater ecology, water quality analysis, and aquatic biodiversity conservation.
• Conducts student projects on microbial pollution, aquatic plants, and freshwater fish studies.
College of Hotel Management -
• Implements water-efficient practices in kitchens, hostels, and hospitality training labs.
• Promotes reuse of water and eco-friendly cleaning methods
Faculty of Arts and Social Sciences -
• Trains communities in water conservation techniques and responsible household water use.</td></tr>
</table>

	- Conducts community awareness campaigns on river, pond, and groundwater protection. - Researches policy frameworks for freshwater conservation and sustainable water management. - Produces campaigns, articles, and documentaries on water conservation and freshwater biodiversity. - Promotes mindfulness, respect for nature, and ethical use of water resources. **University-wide Initiatives -** - Maintains artificial ponds, lakes, and water bodies on campus to support aquatic biodiversity. - Conducts regular water quality monitoring of campus ponds and nearby rivers through the Environmental Science department. - Promotes the conservation of freshwater flora and fauna. - Conducts research on aquatic plants, freshwater fish species, and water pollution control. - Students and faculty study water chemistry, ecosystem health, and sustainable aquaculture practices. - Encourages innovative solutions for freshwater management. - Operates a Sewage Treatment Plant (STP) to treat wastewater before reuse, minimizing pollution runoff to local water bodies. - Implements strict chemical, biomedical, and dental waste management to prevent contamination of groundwater and surface water. - Monitors and mitigates potential sources of aquatic pollution across campus laboratories and hospitals. - Organizes workshops, seminars, and campaigns on freshwater conservation and biodiversity protection. - NSS and NCC units conduct river and pond cleanliness drives in surrounding areas. - Engages communities and students in responsible water use practices. - Promotes rainwater harvesting and responsible water use across facultics. - Encourages eco-friendly laboratory practices to reduce contamination from chemical and biological experiments. - Implements water-efficient measures in campus infrastructure, hostels, and training facilities.
SDG 15: Life on Land University Objective: To protect and promote biodiversity in the university campus, implement tree plantation drives ('Greener India' initiatives), and encourage research on sustainable terrestrial	**Faculty of Medicine & Nursing -** - Maintains medicinal plant gardens for research, education, and healthcare purposes. - Conducts awareness programs on herbal and natural resource conservation. **Faculty of Allied Health Science and AYUSH -** - Utilizes medicinal plants in therapy and research, promoting sustainable harvesting practices. **Faculty of Engineering & Technology -** - Implements eco-friendly infrastructure, water conservation, and soil stabilization projects. - Develops innovative technological solutions for sustainable land and forest management. **Faculty of Pharmacy -**

ecosystem management.	- Conducts research on medicinal plant conservation, propagation, and sustainable use. **Faculty of Science -** - Leads research on terrestrial ecosystems, conservation biology, and soil health. - Engages students in field studies, biodiversity documentation, and habitat restoration. **Faculty of Fine Arts -** - Uses eco-friendly art materials and incorporates nature themes in projects to raise environmental awareness. **Faculty of Management and Commerce -** - Educates students on sustainable resource management, corporate environmental responsibility, and conservation initiatives. **College of Hotel Management -** - Trains students in eco-friendly landscaping, sustainable garden maintenance, and waste reduction practices. **Faculty of Arts and Social Sciences -** - Produces campaigns, documentaries, and articles highlighting biodiversity conservation and sustainable land use. - Conducts research and seminars on environmental policy, forest protection, and sustainable land management. - Encourages ethical stewardship of nature and respect for all life forms through teachings and community programs. ## University-wide Initiatives - - Maintains extensive green cover with native trees, medicinal plants, and ornamental gardens. - Regularly conducts tree plantation drives involving students, faculty, and community volunteers. - Implements biodiversity-friendly landscaping, preserving campus ecosystems. - Monitors campus flora and fauna, maintaining habitats for birds, insects, and small mammals. - Develops herbariums, botanical gardens, and medicinal plant collections. - Encourages student and faculty research on biodiversity, ecosystem restoration, and soil health. - Implements eco-friendly construction practices and soil conservation measures. - Promotes organic gardening, composting, and maintenance of green lawns. - Minimizes land degradation through erosion control, proper drainage, and sustainable landscaping. - NSS, NCC, and faculty-led programs conduct tree plantations and awareness campaigns in nearby villages. - Runs educational initiatives on sustainable land management, ecosystem protection, and biodiversity conservation. - The Environment department and the Faculty of Science conduct studies on soil fertility, forest ecology, and ecosystem services. - Students actively participate in biodiversity surveys, habitat restoration, and

	• conservation projects. • Integrates environmental education into curricula across all faculties. • Organizes seminars, workshops, eco-camps, and community programs to promote awareness about sustainable land use and biodiversity.
SDG 16: Peace, Justice, and Strong Institutions University Objective: To foster a culture of peace, tolerance, and non-violence in the campus, and to maintain effective, accountable and transparent governance structures and a strong rule of law within the university.	**Faculty of Medicine and Nursing -** • Promotes ethical medical practices, patient rights, and professional accountability. • Conducts community health programs that foster equitable access to healthcare. **Faculty of Engineering & Technology -** • Implements ethical technology use, cyber security awareness, and digital governance programs. • Trains students in responsible data management and technology for public good. **Faculty of Law -** • Operates Legal Aid Clinics, providing free legal assistance to marginalized and underprivileged communities. • Conducts awareness campaigns on legal rights, justice access, and civic duties. • Trains students in human rights, mediation, and ethical legal practice. **Faculty of Education -** • Promotes values of social justice, equality, and ethical behaviour in teacher training programs. • Organizes workshops on peace education, conflict resolution, and inclusive teaching. **Faculty of Fine Arts -** • Promotes art for social change, peace, and community cohesion. • Organizes exhibitions and workshops addressing conflict resolution and social awareness. **Faculty of Management and Commerce -** • Trains students on corporate governance, ethical leadership, and social responsibility. • Encourages transparent and accountable practices in student-led projects. **Faculty of Arts and Social Sciences -** • Raises awareness on human rights, social justice, and governance through media campaigns and reporting. • Conducts workshops on ethical journalism and responsible reporting. • Conducts research and seminars on governance, social justice, human rights, and conflict resolution. • Implements community projects fostering peace, inclusion, and civic participation. • Promotes non-violence, mindfulness, and ethical living, contributing to peace building on campus and in local communities. **University-wide Initiatives -** • Implements transparent administrative procedures across admissions, examinations, finance, and faculty management. • Employs digital systems for office management, attendance, and data

	capture, reducing human error and ensuring accountability.
	• Conducts Academic and Administrative Audit to maintain institutional integrity.
	• Internal Complaints Committee (ICC) addresses harassment and gender-related grievances.
	• Anti-Ragging Committee ensures a safe campus environment.
	• Grievance Redressal Cell and SC/ST/OBC & Minority Cell handle complaints fairly and promptly.
	• Equal Opportunity Cell (EOC) promotes inclusivity and non-discrimination.
	• Faculty of Law provides practical training in legal aid, access to justice, and human rights.
	• Conducts legal literacy programs, community legal clinics, and workshops for students and local communities.
	• Encourages interfaith dialogues, cultural events, and community programs fostering understanding and harmony.
	• Faculty and students actively participate in social service, volunteer programs, and awareness campaigns.
	• Promotes academic integrity, plagiarism checks, and ethical research conduct.
	• Trains faculty and students in ethical data management and responsible publication practices.
	• NSS and NCC units organize peace building, social justice awareness, and civic responsibility programs.
