### Report on Value Added Course

#### "Advanced cardiac life support"

Date : 20.10.2018 & 21.10.2018

Time : 09.00 am to 05.00pm

Total student : 30

Course Introduction: Advanced cardiac life support is level of medical care which is used for victims of life-threatening illnesses or injuries until they can be given full medical care at a hospital. It can be provided by trained medical personnel. Such as emergency medical technicians, and by qualified bystanders.

This course will help the students to learn professionalism in the medical field so that they may respectfully help their patients and do what it is ethically right in any situation.

Certificates were issued to all the participants.
