SHAHEED BABA DEEP SINGH COLLEGE

DEPARTMENT OF HOME SCIENCE

# TEXTILE DESIGNING

VAC-HSC-24

**OBJECTIVE:** The aim of the course is to impart knowledge of textile designing among students and make them empowered in personal and professional life.

**PROGRAMME OVERVIEW:** This is a value-added course of 16 hours and is an effort of the Department of Home Science to educate students about textile and its designing so that they can excel in the field with added knowledge.

**ELEGIBILITY:** Students who are XII pass can apply.

**CONTACT PERSON :** Ms Aqsa Khan

HEAD  
DEPARTMENT OF HOME  
S.V. Subharti University

**Overview of syllabus: Textile and Designing**

**16 hours**

**VAC-HSC-24**

- **Unit 1. Introduction to the textile industry**
  - A primary material source for the apparel, interior furnishings, and industrial products industries
  - Careers requiring a knowledge of textiles
  
- **Unit 2. Textile Dyeing**
  - Differences between dyes and pigments and their effects on textile coloration
  - Effects of different dye classes on various textile fibers as well as on colorfastness
  - The dyeing process and reasons for using various stages of dyeing
  
- **Unit 3. Textile Printing**
  - Principles of applying printed design to fabrics
  - Different methods of printing and the uses and limitations of each
  - Various types of prints attainable by different printing methods
  
- **Unit 4. Textile finishing**
  - How textile finishing alters and adapts fabrics for their intended end uses
  - Differences between aesthetic and functional finishes
  - Textile finishing processes and their effects on fabrics
  
- **Unit 5. Care and renovation of textiles**
  - How laundering and dry-cleaning processes affect textiles
  - Principles of soil removal of different types of soil by either laundering or dry-cleaning

## **REPORT ON VALUE ADDED COURSE CONDUCTION- TEXTILE DESIGNING**

**(2020-21)**

Department of Home Science conducted valued added course on textile designing by our faculty Ms Aqsa Khan which was of around 16 hours. The aim to introduce this course was to add entrepreneurship skills to our student's skills pool.

The course started on 15<sup>th</sup> March 2021 and during the whole course duration students were taught about what textile industry is and what scopes are there available in textile industry.

Further, the knowledge about dyeing, printing and finishing of textiles and what are various methods of doing these techniques was imparted to them.

Students were also taught about care and maintenance of textiles over the course of time. The course was taken enthusiastically by a lot of students and was participating in all activities.

In the end, faculty summarized the course with few tips for students such as:

A textile designer needs to coordinate with clients, marketing and buying staff to plan and develop designs.

They need to accurately understand and represent customer's requirements.

A textile designer creates design ideas and develops samples for presentation to customers.

He/she incorporates customer's feedback and ensures required changes in design and sample.

A textile designer also checks and approves finished samples and production standards. .

Needs to work as a part of team and handles design and development through guiding the team as well.

Using specialized software and computer-aided design (CAD) programs to develop a range of new designs.

A textile designer is expected to experiment with color, fabric and texture.

He/ she needs to maintain up-to-date knowledge of new designs and up gradation in production and textile technology.

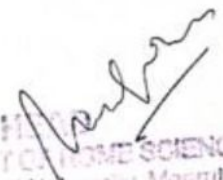

Textile designers also keep developing new design concepts which build the design archive.

As a part of the large team they need to ensure completion of design projects on time.

Ms. Aqsa Khan describing about textile designing & design concept
