SYLLABUS

In Indian concept of primary healthcare was laid down by the recommendations of Bhore Committee (1946). We have seen much improvement in primary healthcare services, infrastructure, and related healthcare indices of the country. Still many challenges are ahead to achieve health for all, this course will enable the participants to understand the basic concepts and other issues related with the concern subject. The course mainly focused on the basics of first aid, and how to provide first aid in wounds, bleeding, minor injury, burns, heatstroke, poisoning, bites, drowning, fainting, seizures and unconsciousness. The course will be very useful for the student to meet the emergencies. It will create a sense of confidence and awareness of how to manage an emergency effectively. At the End of the Course Students are able:

1. To provide first aid recovery to provide physical and emotional support.
2. **To provide first aid to casualties with cuts, grazes, bruises, minor burns, scalds and small splinters.**
3. Conduct a scene survey, a primary casualty assessment and call for help.
4. To define their role as an emergency first aider and to minimize risks to themselves and others.

Report of Value-Added Course on Primary Health Care

Event- Value-Added Course on Primary Health Care

Faculty Engaged- 02

No. of Students – 65

Report- A value added course on the topic primary health care was organized by Sardar Patel Subharti Institute of Law under the guidance of Prof. (Dr.) Vaibhav Goel Bhartiya & Dr. Reena Bishnoi. This course was coordinated with the help of Chhatrapati Shivaji Subharti Hospital and Subharti Medical College. In this course 65 students were admitted and got knowledge on primary health care. This value-added course was started with the aim to provide knowledge regarding basics of first aid to preserve life, prevent complications and reduce suffering and to provide expert medical care or to ensure safe transportation to the nearest healthcare centre.

The course mainly focused on the basics of first aid, and how to provide first aid in wounds, bleeding, minor injury, burns, heatstroke, poisoning, bites, drowning, fainting, seizures and unconsciousness. There was active participation by the students and they expressed that the course will be very useful for them to meet the emergencies. It is observed that student has a sense of confidence and awareness of how to manage an emergency effectively. At the End of the Course Students are able:

1. To provide first aid recovery to provide physical and emotional support.
2. **To provide first aid to casualties with cuts, grazes, bruises, minor burns, scalds and small splinters.**
3. Conduct a scene survey, a primary casualty assessment and call for help.
4. To define their role as an emergency first aider and to minimize risks to themselves and others.
