COURSE SCHEDULE AND OUTLINE

THE COURSE

The significance of maintaining dental record is profound and mandatory for number of reasons ranging from academic interests to documentation. It is important for the clinician to have an apt knowledge of photography for procuring ideal photographic records

The camera is a magical instrument which has a capability of recording and freezing moments. These moments can range in use from being memoirs to being academic displays of excellence. They can also cater as evidences in specific proceedings. In today's, electronic and tech savvy worlds a thorough knowledge of photography is mandatory as it facilitates exchange of vital information for a wide purpose range.

This course aims at training the participant in the speciality of photography which shall help him/her to successfully capture moments and transform them into great pictures of varied interests.

"A picture speaks a thousand words" so let's train ourselves to talk through the lens.

DAY-1

- 8:00-9:00 - FAQs and Expectations from audience
- 9:00-1:00 - Lecture 1- Basics of photography
- 1:00-2:00 - Lunch Break
- 2:00-4:00 - Lecture 2- Advanced photography

DAY-2

- 8:00-9:00 - Clarification of doubts so far
- 9:00-1:00 - Dental Do's and Don'ts in photography
- 1:00-2:00 - Lunch Break
- 2:00-4:00 - Address by Canon India

DAY - 3

- 8:00-1:00 - Hands-On for specimens and models
- 1:00-2:00 - Lunch Break
- 2:00-4:00 - Photography for clinical situations

DAY-4

- 8:00-1:00 - Advance clinical tips for specific cases
- 1:00-2:00 - Lunch Break
- 2:00-3:00 - Course assesment
- 3:00-4:00 - Certificate distribution

Course Mentor:-

Dr. Tarun Sharma

Professor

Seema Dental College

An eminent speaker of clinical photography. He is also the mentor on behalf of canon india pvt. ltd.

Report of Value Added Course on “Dental photography: Behind the Scenes”

Objective- Dental photography is one of the most important diagnostic tools in every field of dentistry. Its thorough knowledge is essential in both academic as well as clinical practice. Photography is now a days routinely used both for capturing reality and as a work of art. Its applicability in dentistry has a wide range of relevance. The foremost objective of this course was to make all the participants aware about the uses, benefits and requirements of clinical photography.

Outcome- A four days Value Added Certification Course on Dental photography: Behind the Scenes was organized by **department of Orthodontics and Dentofacial Orthopedics** in Subharti Dental College in which more than 150 students, faculty participated. On First two days, there were lectures on the mainstream photography, its basics which included detailed knowledge of what is camera, its components and how it should be actually used.

Last two days, the whole focus was on how the clinical photographs should be taken. It also included details on its procedure, its requirements and equipment that are used while taking photographs.

Following this, on the same day, a hands on workshop was conducted which gave all the participants a chance to use a camera personally and they also clicked various clinical photographs with the guidelines told to them in the lecture. After this, a question answer round was held which clarified all their doubts & myths about photography.

In the end, a small evaluation test was conducted which included multiple choice questions. All participants cleared the test with flying colors. This showed that each and everyone who attended the Course was well educated about clinical photography from basics to practical usage and thus made this Value Added Course not only very successful but also a big Hit!!!!
