The screenshot shows a Zoom meeting interface. The main window displays a presentation slide titled "Two-compartment models" with the following text:

These drug concentrations are theoretical only. They result from the average drug concentration in a group of tissues rather than any real anatomic tissue drug concentration.

In reality, drug concentrations may vary among different tissues and possibly within an individual tissue. These varying tissue drug concentrations are due to differences in the rate of drug into the tissues.

The meeting controls at the bottom show the time as 9:20 AM and the meeting ID as ywr-bxgh-nuu.
