Looking for a career in pharmacy ... ? Start with pharmaceutical science!

The healthcare industry is built on a foundation of deep scientific knowledge and profound human connection.

If you have a passion for chemistry, a desire to help others, and an entrepreneurial spirit, few career paths offer as much autonomy and impact as studying pharmaceutical science with the goal of opening your own pharmacy.

First you need to know how medicines are made and learn how they work

Before you can run a business dispensing life-saving medications, you must master the science behind them. Studying pharmaceutical science—typically through a Diploma in Pharmacy (D.Pharm), Bachelor of Pharmacy (B.Pharm), Master of Pharmacy (M.Pharm), or a Doctor of Pharmacy (Pharm.D) course—makes you understand drug discovery, development, and delivery.

During your studies, you will explore pharmacology (how drugs affect the human body), pharmaceuticals (how medicines are formulated and manufactured), and pharmacognosy (the study of medicines derived from natural sources). You will spend hours in laboratories understanding the delicate chemical balances required to create safe, effective treatments. This rigorous academic training ensures that when a patient hands you a prescription, you understand not just what the drug is, but exactly how it will interact with their specific biology and any other medications they might be taking.

Practical experience is a must

Graduating with a degree in pharmaceutical science is only the first step. To transition from a pharmaceutical science graduate to a practicing pharmacist, you must earn your professional license. This typically involves completing extensive clinical rotations and passing rigorous national and state board examinations to prove your competency.

During these clinical rotations, the theoretical science becomes profoundly human. You learn to counsel patients, spot potentially dangerous drug interactions, and navigate the broader healthcare system. This period is also critical for future business owners. It is where you observe the daily realities of how successful pharmacies operate, how inventory is managed, and how long-term patient relationships are maintained.

Time to do business

With a license and clinical experience, the final phase begins, which is entrepreneurship. Opening your own independent pharmacy is a complex but deeply rewarding endeavor. It requires you to play multiple roles—you are no longer just a healthcare provider; you are a business owner, an inventory manager, and an employer.

The true secret to a thriving independent pharmacy lies in differentiation. Unlike massive retail chains, an independent pharmacy can offer highly personalized care. You might choose to specialize in creating customized medications from scratch for specific allergies or needs, focus on chronic disease management, or offer comprehensive wellness and nutritional consultations.

Opening your own pharmacy means creating an accessible healthcare hub for your neighborhood. You become the most accessible healthcare professional in your community—someone patients can turn to for trusted medical advice without needing an appointment.

Studying pharmaceutical science is academically challenging, and building a business from the ground up requires relentless dedication. But standing behind the counter of a pharmacy that bears your name, knowing you possess both the scientific expertise to heal and the business acumen to thrive, is a uniquely fulfilling achievement. If you are ready to blend the precision of science with the art of entrepreneurship, you can plan to start your own pharmacy.

ALUMNI MEET VIRTUAL SANGAM 2.0

Swami Vivekanand Subharti University Hosts Alumni Meet “Virtual Sangam 2.0”

Meerut, 18 July 2026: SVSU Alumni Trust, Swami Vivekanand Subharti University, successfully organised Alumni Virtual Sangam 2.0, in this meet, over 1,000 registered alumni from across India and abroad on one digital platform. The event celebrated the achievements of the University's alumni while reinforcing the lifelong bond between the alumni and their alma mater.

The programme was graced by Prof. (Dr.) Munish C. Reddy, Hon'ble Vice Chancellor, Prof. (Dr.) Shalya Raj, Chief Executive Officer, Prof. (Dr.) Krishna Murthy, Executive Officer, Ms. Avani Kamal, Chairperson, SVSU Alumni Trust, Prof. (Dr.) Noopur Kaushik, President, Alumni Trust SVSU, along with Deans, Heads of Departments, Alumni Coordinators, faculty members, and alumni representing various faculties and departments of the University.

The event commenced with the welcome address by Prof. (Dr.) Noopur Kaushik, who welcomed the distinguished guests and alumni. She stated that the inaugural Virtual Alumni Meet had been organised under the guidance of Prof. (Dr.) Shalya Raj, Chief Executive Officer, and Ms. Avani Kamal, Chairperson of the Alumni Trust, with the objective of reconnecting alumni, strengthening lifelong relationships, promoting professional networking, and creating opportunities for meaningful collaboration with the University.

In his keynote address, Hon'ble Vice Chancellor Prof. (Dr.) Munish C. Reddy described alumni as the University's greatest ambassadors and living legacy. He said that the achievements of alumni reflect the values and quality of education imparted by the University and serve as a source of inspiration for current students. Calling Virtual Sangam 2.0 more than just a reunion, he described it as a platform for emotional reconnect, exchange of experiences, and building future collaborations. He encouraged alumni to remain actively associated with the University and contribute towards education, research, innovation, mentorship, and social development.

Executive Officer Prof. (Dr.) Krishna Murthy Addressing the Alumni, that the University considers its alumni its most valuable asset and remains committed to maintaining strong and enduring relationships with them. He highlighted that alumni can play a vital role in mentoring students, fostering innovation, strengthening industry-academia partnerships, and creating employment opportunities. He also warmly invited alumni to visit the Subharti campus whenever they are in Meerut, assuring them that they will always be welcomed as members of the Subharti family.

बचपन का ज़माना

घड़ी नहीं थी, पर समय होता था।
महँगे खिलौने नहीं होते थे, पर आज़ादी थी।
दौलत नहीं थी, पर दोस्तों का संग था।
जो भी था, उसमें ही खुश रहते थे, न कोई ग़म था।
आज़ादी थी हँसने की भी, आज़ादी थी रोने की भी।
घरवालों के लिए हम ही सबसे कीमती थे,
हर ज़िद पर उनके चेहरे खिलते थे।
रूठ जाते थे तो प्यार से मनाते थे,
सबसे सुहाना सफ़र था बचपन का,
खिलखिलाती हँसी, मासूमियत का जहाँ था।
न दौलत की चाह, न सपनों का बोझ,
हर पल में छुपा था सच्चा सुकून और मौज।
कभी डाँट, कभी दो थपकी भी लगाते थे।
पढ़ाई में पिटाई का भी अपना पैमाना था,
शिकायत घर पहुँच जाए तो डबल जुर्माना था।
सादगी में ही खुशियाँ बसती थीं,
छोटी-छोटी बातों में दुनिया हँसती थी।
जेब में पैसे भले ही नहीं होते थे,
पर पिता का हाथ सिर पर होता था।
न कल की चिंता, न आने वाले कल का बहाना,
हर दिन लगता था जैसे कोई नया अफ़साना।
सच ही कहते हैं सब, बचपन का सफ़र सुहाना,
सबसे बड़ा खज़ाना था बचपन का ज़माना।
हर मौसम लगता था सुहाना,
वो बचपन का ज़माना... फिर कभी नहीं आना।
