LEUER LAND

The Theme 'Leuer Land' is inspired from the outfit worn by 'Doja Cat', designed under the label 'Schiaparelli' with 30,000 crystals for Paris spring week 2023 couture show.

The elements taken by the inspiration lead us to the glim glam of our collection. The Color of the Year for 2023 is Viva Magenta, which is a powerful and empowering color. "Viva Magenta and its tints and tones are fearless, and pulsating colours whose exuberance promotes a joyous and optimistic celebration with powering colour-blocking silhouettes that removes all the distractions of smiles, leaving only a two-dimensional profile that, conversely, can make it for stronger.

ENDURING FASHION

The inspiration came from the vintage aesthetics. Vintage aesthetics that are unique from another era with a recognisable value. In addition to high quality the modern chic elements are exhibited. The elements taken by the inspiration leads us to the subtle glimmer of our collection for the design castle 2023. Soft joyous colour palette has been used. Retro inspired silhouettes are deeply rooted in the fashion industry for several decades. The silhouettes strongly stood the test of time as well as verified to remain relevant in another age too with its so many fine features i.e. timelessness of style, historical or cultural significance, pleasing to eye and interesting provenance.
