SWAMI VIVEKANAND SUBHARTI UNIVERSITY MEERUT

A. Title of the Practice: “Responsibilities Foremost Rights Later”

B. Objectives of the Practice:

Fundamental Rights and Social responsibilities of an individual are an integral part of the developed as well as developing countries. Rights provide an equal opportunity to all irrespective of the cast, creed or religious background. We all are well versed with our rights but are never forthcoming on the issue of our responsibilities. So to develop the values and respect for the rights and freedom is the foundation Human Value and Professional Ethics Education.

At Subharti, Responsibility is not just another word; it is the essential part of life. The principal objectives of this practice are as follows:

- 📖 To inculcate an understanding of what human rights are among the students, faculty members and other non-teaching staff;
- 📖 To make them understand their responsibilities, so that their rights are invariably taken care of.
- 📖 To develop perceptives about the relationship between rights and responsibilities;
- 📖 To organize activities for the students, faculty members and other non-teaching staff to foster knowledge of human rights and fundamental freedoms at the national and international levels

C. The Context:

"Every individual and every component of society ... shall strive by teaching and education to promote respect for these rights and freedoms." Preamble to The Universal Declaration of Human Rights, 1948. In 2004, the United Nations Human Rights Commission was split down the middle on the question of developing an approach to 'human responsibilities'. The preamble of our constitution secures to all the citizens

“Liberty of thoughts, expression, belief, faith and worship”, which are fundamental rights of the citizens. Our duties as a citizen of India are enshrined in the Article 51-A of our Constitution.

As being the citizen of the country, our responsibilities and duties are:

- 📖 We must respect the National Flag and National Anthem.
- 📖 We should respect and obey the laws of our country.
- 📖 We should enjoy rights and freedom under the limit without interfering with freedom and rights of others.
- 📖 We should treat every human without any discrimination.
- 📖 We should be ready to protect our country whenever required.
- 📖 We should respect and protect national property and public property (such as railways, post-offices, bridges, roadways, schools, colleges, historical buildings, places, forests, etc.).
- 📖 We should pay our taxes with honesty in timely manner.
- 📖 We should keep our place neat, clean and hygienic.
- 📖 It is our duty and right to cast the vote for our loyal and responsible representative.
- 📖 To realize the labor of our Laborers.

Swami Vivekanand Subharti University was started with the ideology of Dr. Atul Krishna who had revolutionary ideas. Being a staunch patriot since his childhood and he aimed at creating a community with values of Nationality. Thus, Mahayana Theravada Vajrayana Buddhist Religious and Charitable Trust was formed with a mission of service to provide basic necessities of life such as health and education to everyone in 1991. Thereby, under it, was established a university named ‘Swami Vivekanand Subharti University’ with the motto of *“Sikhsha, Seva, Sanskar and Rashtryata”* in 2008.

To preserve these values which are also enshrined in our Constitution, we are involving all Subhartians to follow a practice named ***“Responsibilities Foremost Rights Later”***. Under this practice, numerous activities have been organized like seminars, workshops to make aware the people of the facts of the constitution, importance of constitutional values, competitive programs like debate competitions, art and crafts, various contests,

various campaigns etc. with the active participation of students, faculty members and other non-teaching staff every year.

D. The Practice:

The fervor of patriotism (Rashtriyata) of Swami Vivekanand Subharti University is one of the virtues, which are inculcated among students and all employees. University celebrates commemorate the birth and death anniversaries of our freedom fighters, honour our Martyrs and the various festivals with great fanfare irrespective of the religion along with students and all the employees by organizing several activities throughout the year as 'Subharti Days'. These commendable initiatives are very much effective to spread awareness among the different stakeholders of the society towards their responsibilities for nation.

Gender Sensitization Committee in association with the FACULTIES of University organizes Programs specific to Gender Equality such as International Women Day, Women Empowerment, Women Health and Nutrition, Self Defense Camp etc. aiming to sensitize about equal responsibilities towards opposite gender.

At University Level, a Value Added Course on "***Fundamentals of Indian Constitution***" was introduced in 2019-2020 for the students with the objective to aware them about the existing traditional, civil and political rights enumerates in the universal declaration of human rights. **Annexure 3 & 4**

As a Social Responsibility towards the environment, University has adopted a sustainable approach to manage its surroundings clean and Healthy. During the orientation Program, University sensitizes the students about the need of protection for their surrounding environment. At Undergraduate level, a subject on Environmental Studies teaches to the students to make them responsive about the environment, and their duties to maintain these available natural resources for future. University also follow '4 R' concept *i.e.* Refuse, Reduce, Reuse and Recycle.

Recycling, Reusing, Reducing to contribute towards environmental responsibility. University has declared every Wednesday as "Car Free Day" and also celebrates Environment Day, Ozone Day and Wildlife Week to sensitize the students. Preparing a green belt by planting more number of plants within campus is also an added step to

reduce our carbon footprint. Even, during the visit of any dignitary guest, we prefer to honor them offering a sapling for plantation as a token of thanks.

We have instilled battery operated vehicles, self-driven motor vehicles to reduce the use of mortised vehicles in the campus. The University has been promoting carpooling, use of cycles and making pedestrian walking paths.

Under the Institutional Social Responsibility, University is serving to the community from almost two decades. University organizes several camps such as Health Checkup Camps, Tobacco Awareness Camp, AIDS Awareness Camp, diabetes Awareness Camp, Blood Donation Camp, Eye Checkup Camp, Nutrition and Heath Camp, Oral Screening Camp, Legal AID Camp, Educational Camp etc. and also conducts various activities such as Nukkad Natak, Skit, and Competition etc. in the neighborhood communities.

University has adopted 5 villages under Unnat Bharat Abhiyaan in 2018 for providing necessary and essential services to the community. This helps community to get rid of its social ills and develop with ease thus contributing to the development of the nation and the overall betterment of life. The list of activities organized by the University and no. of the participants during the last 5 years has been attached in **Annexure 5, 6, 7 & 8.**

We also support a variety of charities where our staff and students are proud participants in these initiatives, and play an active role in contributing for these worthy causes. In case of any National disaster, the University has always played an active role by contributing with manpower as well as monetarily towards the Prime Minister Relief Fund, National Relief Fund, with the contributions coming voluntarily from the faculty as well as students. Swachh Bharat Abhiyan, National Road Security Abhiyan, Anti-Tobacco Day Celebration, Opening of Village Schools and Health Centers are few among many initiatives of the University where students and employees equally participate to perform their responsibility towards the society as individual and for nation as whole.

During Pandemic, an informative video was prepared on this practice with the objective to sensitize the students when they were not able to come for classroom activities. The video was uploaded on Subharti Facebook account from where it can be easily accessed through the link <https://youtu.be/PtBzTf3Lihc>.

E. Evidence of Success:

Several initiatives of the University have made students and employees sensitized about their responsibilities. This mantra has already started paying dividends. We are creating citizens who are more responsible and are more responsive and working for the betterment of the society and Nation.

The University has been recognized for its efforts by various National and International organizations with various awards and recognitions like Paryavaran Sangrakshan Award in Thailand, Global Ambassador for Buddhism Award, SIX SIGMA Healthcare Excellence Award, CSR Excellence Award, Covid-19 Healthcare Excellence Award etc.

Annexure 9. The evidence of success in the context of environmental protection shows that there is improvement in the Air Quality within the campus area due to tree plantation drive. University also has nonexistence of gender biased system and females are getting equal opportunities to work on respective and responsible posts and showing their efficiency with the maximum output for the betterment of the organization.

As a result of continuous efforts for the accomplishment of objectives of this best practice, our students are able to understand the values of sacrifice and forgiveness, respect for elders, honesty and truth, thinking about others before self etc. Before they stake a claim for their rights, they definitely consider their responsibility and duties. University has placed a good example by adhering socially responsible practices which are helping to improve the quality of lives for individuals and their families of the neighborhood communities.

With these healthy practices a seed of change has been sown and the blossoming of tree might take some time but we have to wait patiently for it. It is a continuous process, some results are already visible, but it will take a consistent effort on the part of every individual.

F. Problems Encountered and Resources Required:

Change in the principles and thoughts are though imperative but always have faced an opposition from all stakeholders of the society. People ignore responsibilities for many reasons ranging from 'the simple fact that no one needs to do it', lack of awareness, 'lack

of self-motivation'. Whatever the reason, if people fail to take responsibilities, they'll fail in their performance, growth as individuals and ultimately the growth of the Nation suffers!

Individual born with rights called "Human Rights" but not with responsibilities. Existing laws provide the security to the legal rights of humans but are not able to build sense of responsibilities among the individuals. For this, Our University has taken initiatives to create an atmosphere wherein future leaders will equip our young future builders with self-motivation to fulfill their responsibilities prior to claiming their rights. But still there are many challenges faced by University during the implementation of this practice at all levels. Lack of information about the existing protective laws individuals loses their interest when they are emphasized to hold the responsibilities prior to rights.

To overcome this challenge, The Faculty of Law (established in 2002) has been entrusted to organize various awareness Programs to sensitize the students and employees about their responsibilities towards society and nation. Our Faculty of Journalism and Mass Communication (established in 2010) also play a major role by channelizing its students towards 'responsible Journalism' and 'power of THE PEN'. The purpose behind this approach was to spread the awareness at large scale to make the people sensitive about their responsibilities for national building, social reforms and welfare of the society.

Being a Private self-funded University, there are financial constrictions to organize the activities at large scale, thus University is working to get the 12B recognition so to get the funds from the outsource government and non-governmental agency. University has received some grants under the School of Buddhist Studies which includes self-generated funds to organize several activities like Celebration of Constitution Day, Human Rights Day, Independence Day, Republic Day Independence Day of United India, International Yoga Day, International Women Day etc. We are still working harder to get more success in this field.

Our team is working tirelessly to achieve its goal, and spread the light of Nationalism by self-motivating people toward their duty to Mother India, and helping in the development of a newer India.
