STRATEGIC PLAN 2020-2025

Introduction of the University

Swami Vivekanand Subharti University (SVSU) is a University under section 2(f) of the University Grant Commission (U.G.C.) Act, 1956 set up under the Swami Vivekanand Subharti Vishwavidhayala, Uttar Pradesh Adhiniyam, 2008 (U.P. Act No.29 of 2008) as passed by Uttar Pradesh Legislature and assented by the Hon'ble Governor of Uttar Pradesh in September 2008. University was accredited with grade 'A' by NAAC in the year 2016.

The main campus of the University is in the National Capital Region, strategically situated on National Highway 58, Delhi bypass road, Meerut, the campus aptly called 'Subhartipuram', is spread over a sprawling area of about 250 acres of land comprising magnificent buildings, lush green lawns and vibrant surroundings with over 5000 people, dedicated to making the University a Magnum Opus in the World.

The University has 14 Faculties which provide higher education in various streams like Medicines, Dental Science Nursing, Physiotherapy, Pharmacy, Naturopathy & Yogic Sciences, Engineering & Technology, Management & Commerce, Law, Journalism & Mass Communication, Faculty of Science, Education, Fine Arts & Fashion Design and Arts & Social Sciences.

Vision & Mission

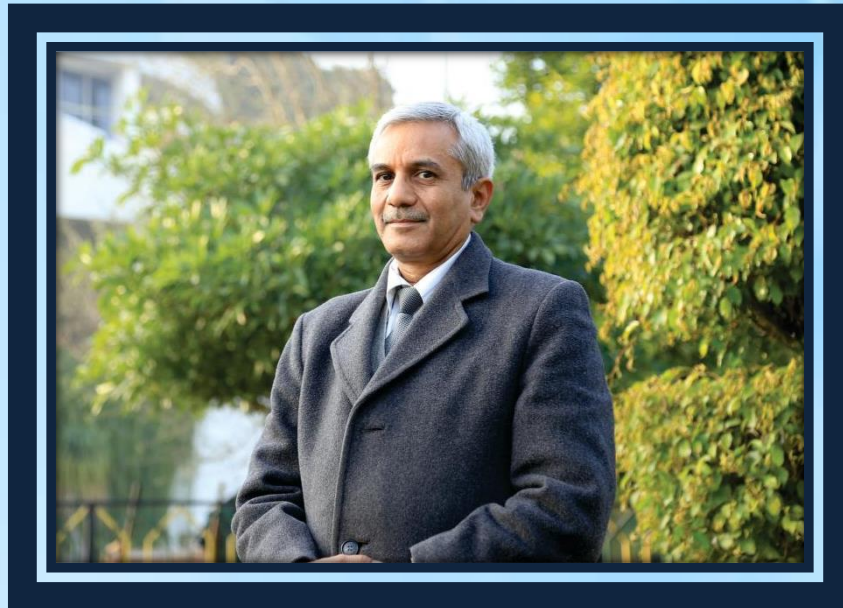

Vision: *“To be an Internationally Acclaimed Multidisciplinary Research Intensive University that provides a holistic and transformative education to create educatedness and well-being along all the dimensions of human life.”*

Mission:

- *To develop good, thoughtful, and creative individuals by ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all.*
- *Promote Multidisciplinary learning through collaboration and integration of technology, innovation, and research.*
- *Realizing Sustainable Development Goals through strengthening global partnerships.*

Objectives of Strategic Plan (2020-2025)

Swami Vivekanand Subharti University has been established with the principles of:

**‘Shiksha, Sewa, Sanskar
Avam Rashtriya’**

Strategic plan of the University is *“An affirmation for the transformation as a global leader and attain excellence in the field of education”*.

Apart from the various initiatives that the University has earmarked in quest of its mission, other areas have been signed out where emphasis has been laid upon in the Strategic Plan 2020-2025:

- ❑ Enhance student experience through advanced teaching methodology and various development schemes and the use of various e-platforms to promote the learner's experiences with the University;
- ❑ Strengthen commitment towards the society and industry to broaden the educational areas and for a lifelong learning experience;

- ❑ Improve upon the existing internal support systems through developing advanced infrastructure;
- ❑ Endorse and encourage the research culture among the students and faculty members;
- ❑ Explore the areas of miscellany by introducing interdisciplinary as well as intra-disciplinary programmes, Life transforming skills, industry exposures, interactions with experts from various fields, participation in co-curricular activities, etc.;
- ❑ Encourage continuous alumni engagement;
- ❑ To promote the University as a true model of global standards so as to attract international students and faculty members; and
- ❑ Develop a green and eco-friendly campus

Core Areas of Strategic Plan (2020-2025)

The Strategic Plan draws a road map to foster the excellence in quality education through the globally acceptable curriculum; Technology based Learning, Transparent Evaluation/Examination System, Project-based Learning, Student-Centric Policies, Supportive Working Environment and Friendly Campus Life.

Swami Vivekanand Subharti University has set specific core areas of improvement:

CORE AREAS

1. STUDENT CENTRIC APPROACH

Student First has always been a policy of Swami Vivekanand Subharti University. Following the same dictum the University is working hand in glove with the students and has a student-centric approach while formulating any policy.

A. Curriculum Enrichment

The curriculum is followed as per the apex bodies like MCI, DCI, AICTE, UGC etc. but wherever possible the curriculum is framed, revised as per the norms and needs of the stakeholders like society and industry. These activities are meant to enhance the life skills of the individuals and extend beyond their main course of study. Few examples include personality development courses, basic life support course, etc. This makes the learning more effective and enables the students to acquire mastery of standards at a level deeper than what is covered in routine.

Future Agendas:

- To develop a mechanism and process for identification of new programmes/ areas and change in existing programmes based on special needs of the society, Industry, regional challenges and faculty expertise.
- To establish more industry partnership in future so as prepare the students as per the needs of the society.
- To initiate curricular revision for the expansion of education and enhancement of Skill Specific Courses and Value Added Courses.

B. ICT based Teaching and Learning

Information and Communication technology has emerged as a boon for the students as it enhances, boosts, supports and optimizes the delivery of information at the click of a button. Every college has been equipped with smart boards, projectors, visualizers (wherever required) for better delivery of information to the learners. Simulation labs have been created so as to facilitate the holistic learning process for the students.

Future Agendas:

- More simulation labs for advanced learning are already in the process of procurement so as to provide better learning experience to the students in future.
- To conduct annual satisfaction survey on existing facilities.
- To organize faculty orientation and mentorship programme for new faculty members.

C. E-resources Accessibility

The University's central library, as well as the constituent colleges, has an unlimited access to the e-learning portals. These e-resources include E-books, E- journals, CD's/ DVD's, E-newspapers, 24 hour net connectivity etc. E-resources have proven to be a rich source of information to especially those students who are always striving to go that extra mile to learn new things which may lead to newer avenues.

Future Agendas:

- To enhance the quality of Library Database, subscription of more e-learning and online resources to fulfill the requirement of students, faculty Members and other stakeholders.
- To develop new online platforms of databases internally and purchase the available digital resources for teaching and learning to move more towards digitalization.

D. Scholarships to support Education

The University has many scholarship schemes for the worthy candidates. There are students helped by the student welfare officer/university officials to apply and avail Government sponsored scholarships such as through Samaj Kalyan Yojana, NGO's etc. The University has scholarship schemes for students who qualify the University entrance exam, for girl students, and disabled persons. The scholarship is in the form of partial or complete fee waiver, providing accommodation free of cost etc. The scholarships are also awarded to meritorious students, children whose parents have served or are serving in the armed forces. The employees who have been associated with the University are also provided relief on the fee, facility of payment in installments and even loan in case they desire.

Future Agendas:

- The University is planning to introduce the scholarships for the foreign students and even those who plan to travel abroad for the Career Advancement.
- The University will also be exploring arenas where foreign funds can be obtained from the sponsoring agencies for overseas students.

E. Experiential Learning

Learning through theory, practical, projects, internship etc. gives a real world experience either within or outside the classroom. Students are required to not only engaged in the structured activities, but also required to reflect their learning and how their skills can be applied beyond the classroom. Most of the Undergraduate and Post Graduate Programmes introduced by the University within various faculties have well-structured curriculum, incorporated with all the required skill enhancement activities.

Future Agendas:

- To organize more field visits under linkages with the organizations of National and International importance to give a lifelong learning experience to the students in the field of their study.
- To plan overseas projects and internships for the students for the betterment of their future.
- To setup more linkages/MoUs with Industry/Corporate for the industrial trainings of the students specially for the programmes like B.Tech, MBA, BBA, M.Com., BJMC, MJMC, M.Sc. etc.

F. Alumni Engagement

Alumni of the University have been actively involved within the various programmes to share their experiences with the presently enrolled students. The alumni have also been providing employment, internship opportunity to other alumni of the University and also donating books, journals, and many more things in kind from their side.

Future Agendas:

- To create the alumni corner on the official website of the University for better engagement of the alumni.
- Initiatives for supporting alumni needs for continued learning and career improvement.
- To develop interaction between alumni and students, mentoring, interaction between alumni and faculty, alumni inputs for curriculum development, alumni support for student placements and internships, alumni involvement in different Committees and in enhancing the innovation ecosystem at University.

CORE AREAS

1. STUDENT CENTRIC APPROACH

G. Co-curricular & Extracurricular Activities

Co-curricular and extracurricular activities are held both at the Faculty level as well as the University level. There is annual sports meet and annual cultural festivals where the students from various streams are actively involved. The participation at national and international level is also encouraged and the students are provided scholarships if they bring laurels to the University. Apart from these University activities, the Faculties also celebrate Fresher's Day, Sports Events, Farewells, Orientation Day, Clinico-initiation Day etc. More such activities are organized throughout the year where the students are being encouraged to participate at the continental and global level events.

Future Agenda: To enhance the participation of the students at National and International Level Sports and Cultural Activities as well in different Competitions and Exhibitions by providing all the essential facilities and support.

H. Academic and Industry Engagements

Activities under Linkages and MoUs with Academic Institutions and Industries can develop wisdom among the students and faculty members in terms of experiential learning, research and advanced studies. University is carrying student exchange, faculty exchange, Field Projects, Clinical Trials and Internship etc. with existing MoU partners. The University is involved with joint research activities with other universities of national importance. The cooperation between these universities extends on new as well as existing programmes and the exchange of information in the form of publications, journals, reference and research materials etc.

Future Agenda:

- To enhance the collaborative research work with the International MoU partners along with the strengthening of required infrastructure for MoU based activities.
- Facilitate student and faculty exchange and joint-PhD programmes with National and International Partners.
- Enhanced link with partner International universities by providing dedicated budgets.
- Establish a centre with adequate number of staff specific to activate the existing MoUs.

CORE AREAS

1. STUDENT CENTRIC APPROACH

I. Training and Placement Cell & Entrepreneurship Development Cell (EDC)

The prime objective of Training and Placement Cell of the University is to prepare graduates/post graduates/doctors leaders for future by continuous training, mentoring and counseling and developing relevant skills related to their area of specialization and additionally whatever needed for their superior career.

Entrepreneurship Development Cell (EDC) of the University creating an ecosystem for nurturing entrepreneurs to create employability for others.

Future Agenda:

- To build an entrepreneurship culture among the students under the concept of “Be a job creator not a job seeker”.
- To provide more training to the students that will prepare them as per the expectations of employer by incorporating Life imparting and Transferable Skills and competencies, Career Advancement Skills, Interviewing Skills and by incorporating Early Internship Programmes.
- To establish a partnership with Job providing MNCs to provide required training as per their need and placement to the students on high packages.

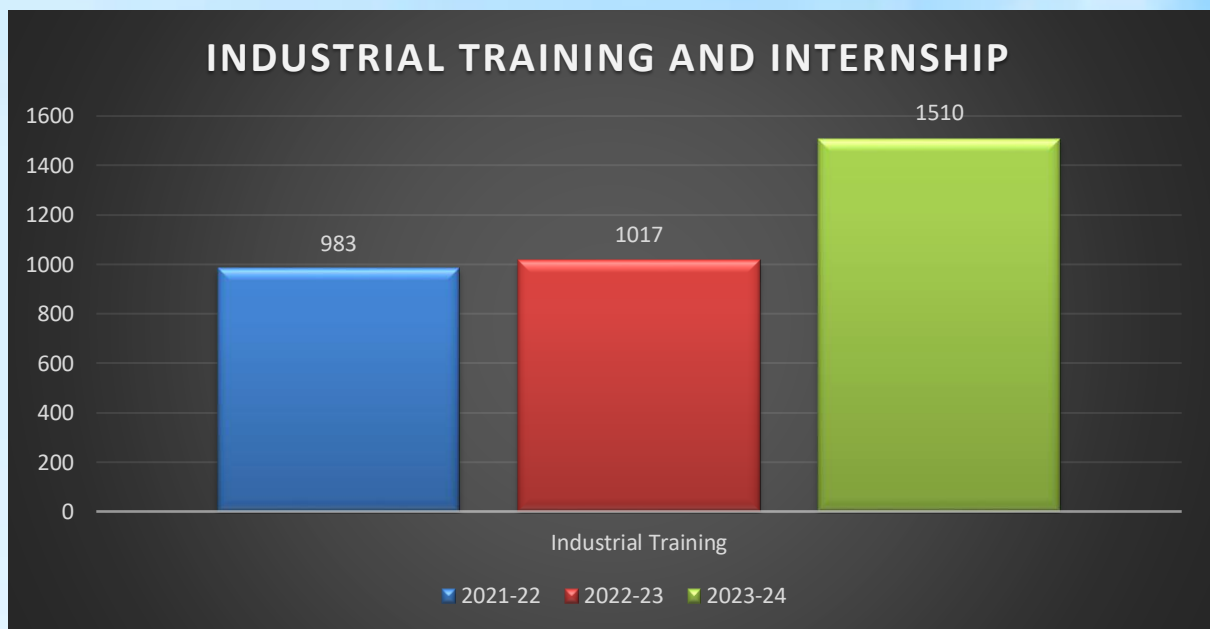

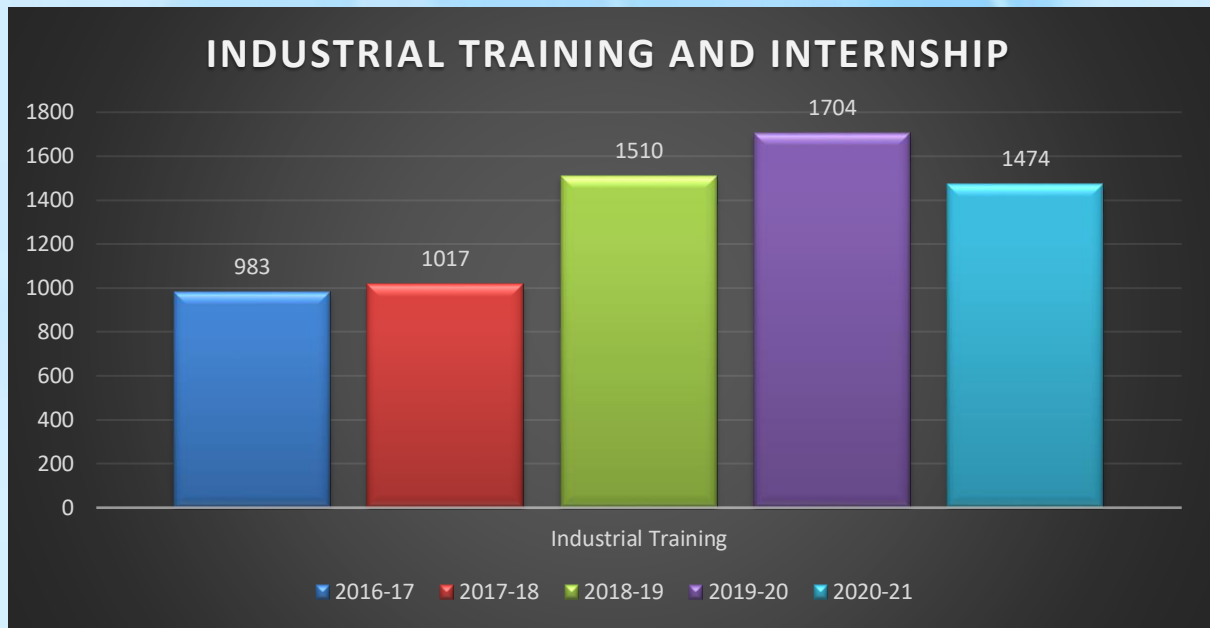

J. Health Services Support

Subharti University is a health promoting University. A free medical and dental check-up of all the students is done at the time of admission be it to any course of study. 24X7 facilities are provided to all students in terms of emergency care. The treatment costs for all the students are at subsidized rates and they are free to avail the services of the hospital as per their needs.

Industrial Training, Internship Training, and Collaborative Research

From the Academic Years 2016-2017 to 2023-2024, participation in industrial training, internship programs, and collaborative research has underscored the growing importance of practical experience in education. The number of participants increased significantly, every year rising from 983 in 2016-17 to 1510 in 2023-24.

These training programs play a vital role in bridging the gap between theoretical knowledge and practical application, equipping students with the skills and experiences necessary for their future careers. By actively engaging in hands-on learning opportunities, students are better prepared to meet the demands of the workforce and succeed in their chosen fields.

CORE AREAS

2. SKILL ENHANCEMENT AND LIFELONG LEARNING

Future Agenda:

Regular Checkup Health Card will be key addition in the near future and promoting the healthy lifestyle for the students is also on the anvil.

A

Soft Skill Development

Soft Skills play an important role in a successful career for the students as well as attitudinal change which help them during social interactions in the society. University is focusing to develop a wide variety of Soft Skills Schemes like Communication, Working in different Environment, Developing Emotional Sensitivity, Learning Creative and Critical Thinking, Negotiation Skill, Time Management, Stress Management and Conflict resolution etc.

B

Language and Communication

Language is among one of the greatest human invention of all time, can still be considered in early stages of development. Language not only helps us to communicate information also gives shape our thoughts. The University has School of Linguistics and Foreign Languages under Faculty of Arts and Social Sciences, intending to teach the students different languages in effective and efficient manner.

C

Value Added Courses (VAC)

Programme curriculum cannot adequately cover all areas of importance or relevance during the course of the study. We as a University is committed to enrich the curriculum to make students better prepared as per industry demands as well as develop their own interests and aptitudes. The University has already made mandatory for the 14 Faculties to conduct at least one Value Added Course (VAC) which to be conducted after class hours or during semester breaks with the involvement of Experienced Faculty Members and Professionals from Academics and industry. This will add value in the knowledge, skill and attitude attributes of the students while performing at their work place.

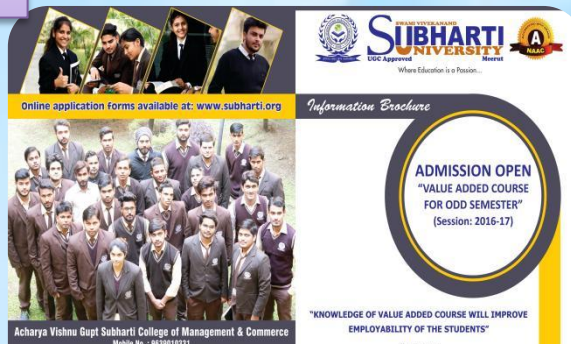

Future Agenda

To start new courses to provide Soft Skills to the students of Undergraduate and Postgraduate Programmes

Future Agenda

To upgrade and introduce the various courses for the improvement of verbal and non-verbal communication skills of the students which would be helpful for the growth in their respective fields.

Future Agenda

To introduce a pool of Value added Courses (VAC) as a separate entity where student can opt for any of the course as per the required skill

CORE AREAS

2. SKILL ENHANCEMENT AND LIFELONG LEARNING

D

Interdisciplinary Programmes/Courses

Interdisciplinary approach allows the student to learn by making connections between ideas and concepts across different disciplinary boundaries. University is running several courses as interdisciplinary courses under the faculty of Medical, Science, Engineering, Management & Commerce, Education and Physiotherapy etc.

E

Employability Skill Development

To fulfill the skills gap between employer requirements and the graduates from the educational system, providing employability skills to the students is essential. Employability Skill can be described in many ways, such as generic, transferable, intellectual, cognitive and interpersonal skills. It enhances an individual's capability to obtain a job and retain suitable employment. The University encourages to achieve employability skills through offering various on site field visits, industry academia partnerships, MoU's, Industry internships and organizing various programmes. University also encourages students to attempt Competitive Examinations like PG NEET, UGC-NET, C-TET, UP-TET, GMAT, UPSC etc. Students get support under mentorship as well as session specific for competitive examination preparation.

Future Agenda

University if planning to introduce more interdisciplinary courses within or along with the curriculum of the programmes such as Online Trading in collaboration with NSE, Art and History, Language and Education, and Geology and Ecology etc.

Future Agenda

The University is planning to expand the Career Counseling Cell aims to organize activities specific to Personal and Professional Development which will encompass Motivation Speeches, Leadership Programme, and Team Management etc. University is also gazing to sign a MoU with the agency to provide coaching for Competitive Examinations to the interested students

Research and Innovation plays an important role to foster the economic growth, strengthen technological progress, and enhance job opportunities in various disciplines for the students as well as faculty members in Higher Educational Institutions. To create the research culture in any organization, three concepts should be considered i.e. Time, Efficiency and Trust.

University believes that diversity, intrinsic motivation and autonomy, three dimensions of innovation, can positively impact the ability of individuals working in the organization. Through various approaches, University is inculcating research culture among the students.

A. Financial Support for Research

University is providing financial support to the faculty members, students and scholars through seedmoney, scholarship and fellowship to promote research culture within the campus as per the existing Research Promotion Policy. Financial supports covers the infrastructure costs, any specialized equipment required, as well as the cost of any initial hiring if required.

Future Agendas:

- To dual the Research Budget from the present budget to encourage the escalation of research ideas.
- To enhance the number of research scholars and the research oriented faculty members and research supporting resources.
- To create a better ambience for research by providing greater flexibility to encourage performance of faculty members and scholars while continually improving research infrastructure.
- To amend the existing Research Promotion Policy for better adoption at all levels.
- To encourage the Faculty Members and Research Scholars for publishing good quality of research papers out based on their research work in Indexed Journals.

B. Incubation support for Startups

University is a firm believer in being self-sufficient and self-sustained, it has laid stress upon the importance of entrepreneurship and has introduced many flagship schemes of Govt of India like "Make in India" & "Start-up India". The Entrepreneurship Development Cell of the University works on shaping dreams into reality. The entrepreneurs are provided with wings to soar, their vision is worked upon, put on paper and the feasibility is checked.

The EDC of the University provides assistance to all upcoming professionals by mentoring, planning and execution of their start up into a real business.

Future Agendas:

- To provide adequate incubation facilities to Students, Scholars, Alumni and Faculty Members for working on their Startup ideas. Although the incubation of Startups in campus are still in its infancy stages but the University will leave no stone unturned to nurture a successful idea or a start up with the required facilities.
- To encouraged the alumni for utilizing incubation facilities and experts input from Entrepreneurship Development Cell so they can establish themselves as successful entrepreneurs.
- The University has started advertising on the national channels so as to increase its reach to the masses and other institutions across the globe for future collaborations.
- The University has signed various MoU's with various National and International Universities and has been collaborating with them on different research projects. The Central Research and Incubation Cell of the University is working towards building a coalition, identifies barriers and facilitators of research, and facilitates interactive problem solving.

CORE AREAS

3. Research and Innovation

C. Accreditation, Audits and Certification as Quality Benchmark

The University has already NAAC “A” Grade, ISO Certification for Energy, Environment and Academic, Good Laboratory Practices Certification, NABH and NABH for the Hospital and laboratory and many government recognition to conduct Training programmes under Medical, Dental, Nursing and Law Faculty.

Future Agendas:

In future the University is looking to achieve more National as well as International accreditation and certifications confirming to the quality standards of the University.

D. Outsource Funding for Research

Although the University is self-funded and tries to make both ends meet but there are times when these means are not sufficient. The University has been applying for regular grants from the Government of India and various funding agencies. The University has completed many drug trials (Clinical Projects), Government and Non-government funded projects so far such as projects from Ministry of Culture, ICSSR, Jhpiego- Johns Hopkins etc.

CORE AREAS

3. Research and Innovation

Future Agendas:

However the research grants received are few but the Central Research and Incubation Center has made it mandatory for each faculty to submit at least one grant every year even if it is rejected.

The University will be making continuous efforts for obtaining projects funding from Government and Non-Government Agency.

E. Research Database (Discipline specific)

The university maintains a research database of journals (online and offline), discipline-specific databases, open-access resources, etc. to fulfill the requirements of Graduate and Postgraduate students, Scholars, and Faculty Members for their study and research. The University has a central air-conditioned library with more than 182804 Books, 150 International journals, 221 National Journals, and 60054 e-journals. Databases include DELNET, EBSCO, SCC online, SAGE, India E-Library (Wolter Kluwer), J-Gate, SCOPUS, Shodhganga, etc.

Future Agendas:

The digitalization of the research work will be carried out and the University plans to create software for gathering all the research at one place so that no discrepancy or duplicacy of the research is there. The software will grant access to all the intramural as well as extramural research projects, research grants etc. so that the future researchers can avail the benefits by not repeating the previous researches and the same can be also used as ready reference.

CORE AREAS

4. Infrastructure Facilities in Campus

Expansion and Growth are the key elements for maintaining a highly effective, continuously vibrant, culturally rich environment around us. University is planning to work in the following areas:

- The University plans to expand infrastructure facilities for introducing newer streams of education in the field of Medical Sciences, Agriculture Science etc.
- The University is also planning to start a college for differently abled individuals to provide them equal opportunities for building their knowledge and skill which would help them to build their career as per their choice.
- The University is planning to start Vocational Training Centre which will focus on the skills required for a particular job function or trade. This will prepare students for specific careers, disregarding traditional, unrelated academic subjects.
- The University is also planning to start a Gaming Arcade by outsourcing it to the interested partners and a Hobby Club for the desirous.
- The University is planning to build a New Hostel with kitchen facility conforming to International Standards for the convenience of overseas students.
- A country which doesn't remember and learn from its history can never succeed. In order to encourage our youth and all others, a museum cum library like 'Sanskriti Vibhaag' is being planned centrally for students and faculty, where they can have a rendezvous with the era gone by in the form of pictures, reading material, so as to make them familiar with the times from the past and know more about our culture, our freedom fighters, our leaders and people of substance from India.
- The University will be investing in constructing a swimming pool, a pavilion for the expansion of the College of Physical Education which will be conforming to the international standards so that the sports events from various Regional, Zonal, State level, National as well as International level can be organized in campus.

CORE AREAS

5. Effective Governance and Leadership

Governance and Leadership are the essential and critical components of an Institution in helping to navigate future challenges and to achieve set objectives. The UNDP in 1997 enunciated a set of core good governance principles that are grouped under five themes viz., legitimacy and voice, direction, performance, accountability and fairness. The University has committed itself to build a strong governance system embracing of Leaders who can help University attain the desirable targets to become the future leader in academics. For this, the University will follow:

A

Transparent Mechanism for Policy Execution

Having an open mind to criticism and implementation of the policies to reach the last deserving person has always been a priority for the University authorities. It helps in more accountability, proper execution, and more transparency at all levels. All the various committees of the University have different heads managing the functioning of their respective committees. The policy frameworks are approved by all the committee members before passing through Executive and Academic Council for approval and implementation.

All the committees have representatives from the management, senior and junior faculty members, Alumni, non teaching employees and different stakeholders and their roles are clearly defined which helps in execution of the policies from top to the ground level.

B

Strategy for Governance Functioning

The roles and responsibilities of bodies like Research cell, Grievance cell, Examination cell, etc. and their members are clearly defined and predetermined. It helps in improving the day to day functioning of the University and also tends to keep a check into the problematic areas well in time.

In future the University intends to make retired Civil Servants to be part of these committees as special invitees so that their valuable inputs for the improvement of existing structure and it's functioning.

CORE AREAS

5. Effective Governance and Leadership

Stakeholder's Participation

Participation of the all the stakeholders namely the students, teachers, alumni, parents, employers and professionals by providing valuable inputs in decision making with the involvement in various committees are a reflection of the real needs and priorities.

In future, the University is planning to have more engagements for all the stake holders while organizing several activities and intends to empower and those members more who show an effective participation and are more forthcoming in the decision making process.

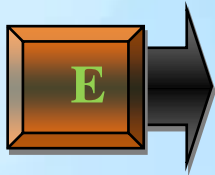

Establishment of Human Resource Department

The University has a Human Resource Department but the activities under this department are very are few and far in between. The University management is planning to developing a Human Resource Department as a separate entity which will look after the core issues of recruiting, appraisal, personal and professional development, and managing employee and employer relations.

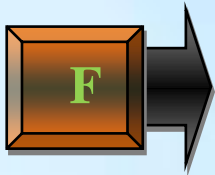

CORE AREAS

5. Effective Governance and Leadership

Leadership Development Programmes for teaching and non-teaching staff members

The University organizes Professional Development Programmes for teaching and non teaching employees in the form of Faculty Development Programs, Conferences, Workshops and Seminars which has witnessed various world renowned personalities interacting with the employees. Each constituent college is entrusted with the responsibility of organizing Professional Development Programme annually under the aegis of IQAC for all its employees. This has helped the University to identify various individuals with leadership skills and have also helped individuals to get growth in their career. In future the University will be increasing number of such programs both at the Faculty level as well as University level.

Orientation and Refresher Programmes for teaching and non-teaching staff members

Orientation programs are held annually for both the teaching as well as non teaching staff. The orientation programs include introduction to the Subharti History, Campus Introduction, Understanding of Code of Conduct, expectations from the employer and employee. Refresher program is held for the existing teaching and non teaching faculty along with the orientation program where the values and morals, vision and mission of Subharti are reinforced with the existing employees. As it is held with the orientation program, so it is an annual event. The University is planning to make this event biannual both at the Faculty level as well as University level.

CORE AREAS

6. Social Responsibility and Environmental Consciousness

The best approach for Universities to become good corporate citizens for their stakeholders, communities, and societies is by adapting the concept of social responsibility along with Environmental Consciousness Practices. Social Responsibility of the University (USR) includes the following areas where more emphasis is being given:

- ✦ to strengthen society's commitment and active partnership with local communities;
- ✦ to provide services to the community through community engagement and outreach activities;
- ✦ to promote economic and ethical approaches to concerned issues of the community;
- ✦ to develop a sense of responsibility with the Best practice "Duties Foremost Rights Later" and by engaging the students and the academic and administrative staff to provide social services to their local community;
- ✦ to promote environmental consciousness among the stakeholders to achieve Sustainable Development Goals (SDGs.)
- ✦ to expand knowledge, skill and attitude of the students, scholars and faculty members through conducting quality research and education for the nation and for humanity.

A. Community Engagement

The University is focusing on broadening community engagement of the students beyond the vicinity of the institute, and capacity building and community development in a sustainable way by enabling students to understand the needs and problems of the community. The hospital is already engaged in providing health care at affordable cost to the nearby community. The University has already established satellite centers in the vicinity and plans on increasing the number of satellite centers to reach the needy. The regular health camps are being held by medical as well as dental college in collaboration with various NGO's.

CORE AREAS

6. Social Responsibility and Environmental Consciousness

The University plans to increase the number of camps being held and also plans to reach the far flung areas. Most of the tests are already available on subsidized rates for one and all. In future, University plans to provide onsite testing facilities for the camps at subsidized rates. Desperate times like Corona have increased the value of services like Tele-medicine and Tele Dentistry. The facilities already existed in the hospital but in future we plan to start a toll free number for Tele-medicine facilities.

B. Green and Environment friendly Campus

The University management feels that the need of the hour is to move towards a greener India and consecutively a Greener Mother Earth. The University plans on investing and evolving methods for saving the natural resources. Various environment friendly factors such as Water, Air & Noise, Land, Flora & Fauna, Solid Waste Treatment, Solar Systems contribute in making an eco-friendly campus. The initiatives taken by University and the future plans include.

- ✚ The University already has e-vehicles plying within the campus. The University has planned investment on more Electric vehicles within campus, which includes e-rickshaws, e- vans and e-motorcycles with an easy access to patients and other residents of the University.
- ✚ The University plans to introduce and promote the use of bicycles within campus. The University is already in process of establishing cycle booths at various locations inside the campus.
- ✚ The University is already energy savvy and in last five years has converted the lighting system from normal bulbs to LED lighting system. In future, all these LED street lights would be replaced with solar powered lights.
- ✚ The installation of sensor based lighting system is already started and in future all offices will have sensor based lighting system.
- ✚ The solar panels are already installed in hostels, few colleges and residential blocks. The University has started taking baby steps towards self sustainable solar powered electricity and the ground work for the same has already started.
- ✚ The University team is already working aggressively on utilizing the green waste and recycling the use of non degradable waste.
- ✚ Various compost pits have been made and color coded dustbins have been placed at short distances of 50 meters each so that no littering of the waste is there. There is still problem in segregation of recyclable waste and the dedicated team for this purpose is already working out the strategies for the same.
- ✚ The campus has multiple rain water harvesting reservoirs and plans on constructing more reservoirs.
- ✚ A policy is already being planned to have every new construction in the future to be an environment friendly edifice.

Execution of Strategic Plan 2020-2025

University Strategic Plan for 2020-2025 encompasses all the important quality indicators to improve the benchmark in the field of academic programmes, research, collaboration with industry, human resource development, entrepreneurship, development of infrastructure and facilities, student life, placement, community outreach, international and alumni relations.

Executive Committee via Academic Council approves the Strategic Plan to get it implemented at next level in realistic manner. Internal Quality Cell of the University monitors the progress of Strategic Plan timely to conquer the identified gaps. The targets under Strategic Plan will likely be exceeded if the contribution of all stakeholders are aligned and strengthen each other.
