

Mandatory Annual Dedicated Training on Social Aspects of Sustainability for Staff Members

Swami Vivekanand Subharti University, Meerut

(Established under U.P. Govt. Act no. 29 of 2008 and approved under section 2(f) of UGC Act 1956)

Swami Vivekanand Subharti University and its Commitment to Social Aspect of Sustainability

Inspired by the selfless legacy of Swami Vivekanand and the 'Subharti' spirit of service, we've made social responsibility a non-negotiable part of our DNA. We believe our faculty and students should be as compassionate as they are capable. Through our annual training programs, we have honest conversations about inclusivity, mental health, and the ethics of our work. By weaving these values into our professional lives, we're doing our part to meet the UN's goals for equality and well-being. To us, success isn't just about training a professional—it's about nurturing a human being who cares about the future of our society.

Mission of Swami Vivekanand Subharti University

- To develop good, thoughtful, well-rounded and creative individuals by ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all.
- Promote Multidisciplinary learning through National & International collaboration and integration of technology, innovation, and research.
- To Realizing Sustainable Development Goals through strengthening global partnerships.

The top priority given to the social aspect of sustainability is reflected in the first mission of the university which focuses on developing good, thoughtful, well-rounded and creative individuals by ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all.

Its Four Pillars are: **Shiksha** (Education), **Seva** (Service), **Sanskar** (Culture) and **Rashtriyata** (Nationalism). These pillars suggest that although the institution has prime concern for education, culture and nationalism but the pillar of service is also of paramount importance which signifies its commitment towards the social aspects of sustainability.

Professional Training on Social Aspects of Sustainability for Staff Members:

The Social Aspect of Sustainability is strengthened through Professional Training of the University Staff Members who serve as the resource persons in implementing and advancing institutional policies related to social aspects of sustainability. These training are designed for cultivating an appropriate value-driven mindset, enhance the capacity of staff as vital human resources, and enable them to effectively disseminate knowledge to future generations as well as positively influence the society. This, in turn, supports the promotion, implementation, and long term integration of sustainable development goals within the social domains.

Professional training is delivered through a structured range of activities, including:

1. Faculty Development Program (FDP)
2. Guest Lecture
3. Continuing Education
4. Sensitization Lecture
5. Seminars
6. Symposium

The representation of the above mentioned activities :

1. Faculty Development Program (FDP) on "Emotional Intelligence and Empathy"

5. Symposium On Bridging Education And Employability

Faculty of Engineering and Technology Swami Vivekanand Subharti University, Meerut

Event Report: International Symposium on Bridging Education and Employability: Preparing a Future-Ready Workforce

Date: 05-02-2025

Venue: Satryajeet ray Auditorium, Swami Vivekanand Subharti University, Meerut

Organized by: Department of Electronics and Communication Engineering, SVSU, Meerut

Introduction

The **International Symposium on Bridging Education and Employability: Preparing a Future-Ready Workforce** was a landmark event that brought together over 300 participants from different colleges and faculties of Swami Vivekanand Subharti University, along with educators, industry leaders, policymakers, researchers, and students. The symposium aimed to address the growing disconnect between education systems and the rapidly evolving demands of the global workforce. Through keynote speeches, panel discussions, workshops, and networking sessions, the event provided a platform for sharing insights, best practices, and innovative solutions to prepare individuals for the future of work.

Highlights

The symposium commenced with an welcome address by Dr. Sharvan Garg, Vice Principal, Faculty of Engineering and Technology, SVSU followed by inspiring opening address by Maj. Gen. (Dr.) G K Thapliyal. Keynote Speakers of **the** event Dr. Steven Edmond, Dean and Professor Emeritus, HT University, Texas, USA, took the event to the next level by his address, who emphasized the urgency of reimagining education to meet the challenges of the 21st century. The speaker highlighted the need for collaboration between educational institutions, industries, and governments to create a seamless transition from learning to employment. Key topics included in his talk are:

- Aligning Education with Industry Needs
- Future-Ready Skills
- Technology and Innovation

A guest Lecture was delivered by Dr. Manish Sharma, Director, Research and professor, Chitkara University, Punjab. He include the following ideas in his lecture:

- Designing competency-based education programs.
- Implementing micro-credentials and alternative certification pathways.
- Strategies for promoting lifelong learning and upskilling.

Key Takeaways of the symposium

1. **Collaboration is Key:** Strengthening partnerships between educational institutions, industries, and governments is essential to ensure that education systems are aligned with workforce needs.
2. **Focus on Skills:** Beyond technical knowledge, soft skills and adaptability are critical for success in the future job market.
3. **Leveraging Technology:** Emerging technologies offer transformative potential for education and training, but their implementation must be inclusive and equitable.
4. **Lifelong Learning:** The concept of education as a one-time event is out-dated. Continuous learning and up-skilling must become the norm.
5. **Equity and Inclusion:** Efforts to bridge the education-employability gap must prioritize underrepresented and marginalized groups to ensure no one is left behind.

Conclusion

The International Symposium on Bridging Education and Employability was a resounding success, fostering meaningful dialogue and collaboration among stakeholders. The event underscored the importance of rethinking education systems to prepare individuals for the challenges and opportunities of the future workforce. The insights and recommendations generated during the symposium will serve as a roadmap for policymakers, educators, and industry leaders to drive transformative change.
