## **The Objective of the Activity**

The primary objective of the three-day workshop was to build a comprehensive understanding of the *NAAC Health Science Manual* among faculty members, administrative staff, and stakeholders. The workshop was designed to provide systematic and hands-on training on the accreditation framework, quality benchmarks, and documentation practices. The goal was to ensure alignment with NAAC expectations, strengthen institutional preparedness, and foster a culture of continuous quality improvement.

## **Description**

The three-day workshop was organized as part of the institution's quality initiative under the Internal Quality Assurance Cell (IQAC). It featured expert-led sessions, interactive discussions, and practical exercises. Each day of the workshop was structured to provide both theoretical insights and hands-on activities related to the seven NAAC criteria, which form the foundation of the assessment and accreditation process.

### **Day 1 – Foundation and Core Criteria**

- **Curricular Aspects:**

Sessions focused on curriculum design, academic flexibility, value-added courses, integration of cross-cutting issues, and feedback mechanisms. Participants practiced documenting curriculum enrichment, stakeholder engagement, and statutory body involvement.

- **Teaching-Learning and Evaluation:**

Detailed discussions on student enrolment, outcome-based education, innovative pedagogy, ICT-enabled teaching, and transparent evaluation processes. Faculty shared experiences and mapped current practices against NAAC indicators.

### **Day 2 – Research, Infrastructure, and Student-Centric Practices**

- **Research, Innovations and Extension:**

Emphasis on building a research culture, securing funding, publications, patents, community outreach, and collaborations. Case studies were shared on documenting research projects and extension activities.

- **Infrastructure and Learning Resources:**

Hands-on review of physical and digital infrastructure, maintenance practices, and adequacy of health science-specific facilities (skill labs, hospitals, simulation labs, IT resources).

- **Student Support and Progression:**

Activities on documenting mentoring systems, scholarships, career guidance, placement, and alumni engagement. Departments reviewed their mechanisms for tracking student progression and holistic development.

### **Day 3 – Governance, Values, and Institutional Practices**

- **Governance, Leadership and Management:**

Sessions covered institutional vision, mission, decentralization, e-governance, performance appraisal, and professional development. Practical exercises included preparing governance-related documentation templates.

- **Institutional Values and Best Practices:**

Focused discussions on sustainability initiatives, gender equity, inclusivity, professional ethics, and institutional distinctiveness. Participants prepared drafts of “best practice” documentation.

- **Consolidation Workshop:**

The final session engaged participants in mapping departmental practices with NAAC criteria, initiating framework development for Self-Study Report (SSR), and creating an action plan for continuous quality improvement.

### **The Outcome of the Activity**

- Participants gained criterion-wise clarity and hands-on experience in documentation.
- Institutional teams were equipped to initiate systematic data collection and SSR preparation.

- Departments identified strengths, gaps, and opportunities for aligning practices with NAAC benchmarks.
- A roadmap was established for strengthening quality assurance mechanisms at departmental and institutional levels.

### **Analysis of Participants' Feedback**

Feedback was collected through structured forms at the end of the workshop. Key highlights:

- Over 90% rated the workshop as “Highly Useful” and “Well-Structured”.
- Participants appreciated the balance of theory, case studies, and hands-on exercises.
- Suggestions included discipline-specific follow-up workshops and advanced sessions on NAAC portal data entry.
- Participants emphasized the importance of periodic refresher workshops to sustain momentum.

### **Our Mapping Practice**

Following the workshop, the institution initiated an internal mapping exercise to align departmental practices with the NAAC manual's requirements. Each department was tasked with identifying existing documentation, mapping it to key indicators, and highlighting gaps. A centralized digital repository was proposed to streamline data collection, while IQAC undertook the responsibility for periodic reviews and progress tracking.

### **Conclusion**

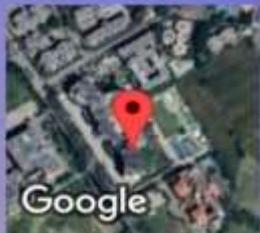

The three-day workshop effectively provided both conceptual clarity and practical skills for engaging with the NAAC Health Science accreditation framework. By integrating lectures, discussions, and hands-on exercises, it empowered stakeholders to take ownership of the quality assurance process. The workshop catalysed a stronger quality culture within the institution, ensuring that systematic, evidence-based practices become an integral part of institutional functioning.
