Tables

Tables must be self explanatory. The data must be clearly organized and should supplement and not duplicate the text. Data may be presented either in table or pictorial form. Do not use internal horizontal or vertical lines. Explanatory matter should be given as footnotes. Statistical analyses used must be appropriate. Confidence interval along with exact probability values must be probability values must be stated for the results. Round decimals in two digits. Each table must have a title and should be numbered with Arabic numerical e.g. (1, 2). Type or print each table with double spacing on a separate sheet of paper. Number tables consecutively in the order of their citation in the text and supply a brief title for each. Give each column a short or an abbreviated heading. Explain all nonstandard abbreviations in footnotes, Table should not be carried over to the next page.

Illustrations and Figures

- **Number each figure in the text in consecutive order.**

Abbreviations and Symbols

Use only standard abbreviations in the title of the manuscript. The spelled-out abbreviation followed of the abbreviation in parenthesis should be used on first mention unless the abbreviation is a standard unit of measurement.

Abstract

Abstract provides a brief summary of the dissertation/thesis, summing up clearly the problem examined, the methods used, and the main findings. The abstract is a one-paragraph, self-contained summary of the most important elements of the paper. The abstract word limit is between 250 and 300 words. All numbers in the abstract (except those beginning a sentence) should be typed as digits rather than words. Key words (Max.10) should be given, chosen from nursing subject headings. Each word should be separated by semicolon.

References

- **The Reference list should appear at the end of the paper and provide the full bibliographic information about the sources cited.**
- **List all references in order by number, not alphabetically. Each reference is listed once only, since the same number is used throughout the paper. It should be numbered consecutively in the order in which they are first mentioned in the text. Identify references in text and tables by Arabic numerals in parentheses.**
- **The titles of journals should be abbreviated according to the style used in the list of Journals. The following information is included for journal articles: author (s), article title, abbreviated journal title, year, month (if applicable), day (if applicable) volume number, issue number (if applicable), page numbers. For books author (s), title, Edition, place of publication, publisher, and year.**
- **List each author's last name and initials; full first names are not included. List all authors, but if the number exceeds six, give the six followed by "etal".**
- **For books with chapters written by individual authors, list the authors of the chapter first, then the chapter title, followed by "In:", the editors names and book title.**
- **Initials follow the family names of authors and editors with no space or full stops**

between the initials of an author, e.g. Halpern SD, Ubel PA, Caplan AL.

- **Commas are used to separate each author's name. Note that 'and' is not used to separate the last two names.**
- **Minimal capitalization is used for the article title, i.e. only the first word and words that normally would begin with a capital letter are capitalized.**
- **Full stops are used after the last author's initials, after the article title, after the abbreviated journal title and at the end of the entry.**
- **Peck J, Coyle M. the student's guide to writing. Basingstoke:Palgrave Macmillan; 2005.**
- **The date is followed by a semicolon (with no space after it) and the volume number or issue number is followed by a colon (with no space after it). General principles

Paper

Use only one side high-quality, plain white (unlined in any way) bond paper, minimum 20-lb weight, and 8 ½ “ x 11” in size. Erasable paper should not be used.

- **Type Size and Print** The font size should be visible to the reader, preferably Times New Roman 12 pt. No italicization.

The size of the titles should be 14 and Bold, the size of subtitles should be 12 and bold. Print should be letter quality or laser (not dot matrix) printing with dark black characters that are consistently clear and dense. Use the same type of print and print size throughout the document.

Pagination

Number all of the pages of your document, including not only the principal text, but also all plates, tables, diagrams, maps, and so on. Roman numerals are used on the preliminary pages (pages up to the first page of text) and Arabic numerals are used on the text pages. The numbers themselves can be placed anywhere on the page, however they should be consistent.

Spacing

Use double spacing except for long quotations and footnotes which are single-spaces.

Margins

Margin size: “generous” – Use plenty of room on the top, bottom, left & right (1” minimum). To allow for binding, the left hand margin must be 1.5”. Other margins should be 1.0”. Diagrams or photographs in any form should be a standard page size, or if large, folded so that a free left hand margin of 1.5” remains and the folded sheet is not larger than the standard page.

Photographs

Professional quality black and white photographs are necessary for clear reproduction. Colors are allowed, but you should be certain the colored figure will copy clearly and will not be confusing when printed in black and white.

File format

Dissertation format should be in Doc (Ms Word Document) or PDF (Portable Document Format), Image files in JPG or TIFF format and Audio Visual in AVI (Audio Video Interleave), GIF,

MPEG (Moving picture expert) files format.

Labeling on CD

CD-ROM Labeling should be standard and should contain title, name of the candidate, degree name, subject name, guide name of the department, college, place and year.
